

Special Exhibit/Activity

Nevada County Superintendent of Schools (NCSOS) is seeking community agencies and classrooms to contribute to the 2nd annual Nevada County STEAM Expo for the students in Nevada County.

March 25, 2017

Nevada County Fairgrounds

The Nevada County STEAM Expo is an innovative alternative to the typical science fair. This exciting free event features Science, Technology, Engineering, Art, and Mathematics [STEAM] as educational opportunities and viable career paths - showcasing elementary through high school student-generated work. With your participation we will also be connecting students with their community and the role you play.

More than a characteristic science fair, STEAM Expo offers a place for students to exhibit their work alongside demonstrations and learning opportunities for the entire family - including expert presentations and interactive events, allowing young minds to experience an innovative environment of hands-on science. We want students to leave the Expo inspired to explore their interests and talents.

Exhibitors provide an opportunity for STEAM related activities and/or demonstrations and will receive special recognition in the Expo brochure, during events, and on the website.

I. Name of Organization _____

Contact Person _____

Telephone _____ Email _____

II. Title of Special Exhibit _____

III. Describe the exhibit/activity and how it relates to STEAM education for students:

IV. Specifications and requirements (please complete as appropriate – based on this information, our organizational team will contact you regarding specifics to scheduling and set up):
