

This event is presented by the Nevada County Superintendent of Schools office in order to promote 21st Century STEAM education in our county and to link these educational goals with career opportunities provided by local businesses and organizations.

Date: Saturday, March 25, 2017

Location: Main Street Center, Nevada County Fairgrounds

Time: 9 a.m. – 3 p.m.

See AWESOME student projects from nearly every Nevada County school!

Play with robots * Experience virtual reality * Get a free bike tune-up (first come, first served),

Learn about women inventors who changed the world * Make a bike-powered smoothie

Use 3D pens * Program a Sphero * Deepen your environmental awareness

Learn how to code * Do hands-on math * Try out musical instruments

Listen to the MIM Youth Orchestra * Enjoy visual recordings of art and the art process

Construct a star wheel and learn how color is used in astronomy

Use the NC Library's telescopes, digital cameras, and robotics kits

Visit the Library's Mobile Technology Lab * Explore NID's centrifuge and create one yourself

Experience creating a human generated electro-magnet and put it to work

Dissect owl pellets * See how macroinvertebrates diagnose stream health

Learn about staying healthy * Purchase delicious food and beverages from local vendors

Take part in a scavenger hunt and share your Tweets on our giant screen!
