FREQUENTLY ASKED QUESTIONS –

CPR/FIRST AID/AED TRAINING

1. **What CPR/First Aid/AED class should I take if I work in an elementary/middle/high school?**
   The adult course trains you for people 8 years of age or older. If you are responsible for children under the age of 8, you should take the Pediatrics course which includes adult/child/infant (Child = 1 to 8 years of age; Infant = 1 year old or less).

2. **What CPR class should I take if I work in a child daycare center or preschool?**
   You should check with your supervisor at the school but most people working at daycare centers need to take a specialized in-classroom type course certified by EMSA. If you need to take the EMSA CPR course, contact Havilyn Kern at 530-470-8985 for more information or to schedule.

3. **Do you provide a "Healthcare Provider" CPR course?**
   No, we do not.

4. **How long should it take to complete the on-line program?**
   If this is your first time to take a CPR course, it will take approximately 2-3 hours for the on-line course. If this is a re-certification for you, it could take between 1-1/2 hours to 2-1/2 hours.

5. **How long do I have to complete the skills demo check?**
   You can take as long as you like; if you sign up for a skills demo check and can't make it to that one, just notify us (fyamamoto@nevco.org) and we can re-schedule you for another skills demo check date.

6. **Do I bring a proof of completion with me to the skills demo check ?**
   Yes, please bring the on-line course certificate of completion with you to the skills demo check.

7. **What if I have to postpone attending the skills demo check I signed up for?**
   Just let us know (at least 24-48 hours prior if possible) and we can re-schedule you for one of our future skills demo check sessions. If our skills demo check class size is 6 people or less, we may have to re-schedule.

8. **When will I receive my CPR certificate and how long is the certificate valid for?**
   The certificate is valid for 2 years. You should receive your CPR the day after passing/completing the skills demo check session, however, please count on up to a week to receive your certificate.
