California Department of Education School Accountability Report Card Reported Using Data from the 2014-15 School Year

Published During 2015-16

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Facility Conditions and Planned Improvements - Most Recent Year

Students are safe on school grounds before, during, and after school. There are 3 classrooms, two bathrooms, an office building, and a basketball/play area. This is sufficient for the low population of students - usually under 20. The buildings are portable classrooms that have been located on this site since 2006. They are approximately 20 year old portables, but are painted and repaired on a regular basis. The maintenance staff of the site owned school district ensures that the school is kept in good repair and work orders are completed in a timely manner.

The LEA takes great efforts to ensure that all schools are clean, safe, and functional. Due to the small size of the facility, it is easy to review the upkeep on all the buildings on a regular basis. The site is thoroughly cleaned by our maintenance staff daily.

For more information on school facilities, contact the school principal.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP], Science California Standards Tests); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

California Assessment of Student Performance and Progress Results for All Students (School Year 2014-15)

Our numbers are too low for reporting.

Subject	Percent of Students Meeting or Exceeding the State Standards		
	School	District	State
English Language Arts / Literacy (grades 3-8 and 11)	--	45.0%	44.0%
Mathematics (grades 3-8 and 11)	--	28.0%	33.0%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. Double dashes (--) appear in the table when the number of students tested is ten or less.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

Opportunities for Parental Involvement - Most Recent Year

Since most of the students/families attend Launch for a limited amount of time, there tends to be little parent involvement. Phone calls and letters are sent out on a regular basis to encourage parent participation in school decisions and planning. Parents are highly encouraged to become a part of the School Site Council to assist in planning for their students' achievement at Launch.

State Priority: Pupil Engagement

Last updated: 1/13/2016

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates; and
- High school graduation rates

Dropout Rate and Graduation Rate (Four-Year Cohort Rate)

Since most of our students do not attend more than one or two semesters, the graduation rate is misleading. Most of our students return to their home schools to complete school and graduate.

Indicator	School			District			State		
	2011-12	2012-13	2013-14	2011-12	2012-13	2013-14	2011-12	2012-13	2013-14

Completion of High School Graduation Requirements

Because students are assigned to our school for one to two semesters, we do not have a rate of completion of graduation requirements. Most students return to a more traditional site, prior to graduation.

For any student who does graduate from Launch, they have all met the state graduation requirements.

School Safety Plan - Most Recent Year

The school safety plan is updated annually or as procedures change. The last update/review date for the safety plan was January 2015. The plan is all encompassing and includes all scenarios. It was put into place with the assistance of trained safety coordinators. All staff and school personnel have access to the plan and it is discussed several times a year during professional development days. Drills are scheduled to include students for both fire and "lock down" procedures at least quarterly. Earthquake drills are held annually.

Types of Services Funded (Fiscal Year 2014-15)

Supplemental educational services include outside agencies coming into the school and working with the students. Weekly, County Therapists, drug and alcohol counselors, and Health presenters meet with the students to help them to better cope with the difficulties the students may be dealing with in areas of substance abuse, anger management, emotional stress and other related topics.

In addition, training for technology use has been implemented for school staff for use of ipads in instruction and web-based programs for remediation and career/technical training.

Professional Development – Most Recent Three Years

There are 5 designated professional development days scheduled each year, as well as weekly meetings each Friday for Professional Learning Community work. Staff also attend a number of workshops and trainings off-site throughout the year.

The areas of focus are on:

1. Development of adequate and motivational curriculum for the variety of students in each class
2. Behavior improvement plans for each student and as a whole school
3. Safety in dealing with volatile school/student situations
4. Drug/Gang information sharing
5. Alternative Education strategies
6. Technology in the classroom
6. Technology in the classroom
6. Common Core standards understanding and implementation
7. Rapport building with students to assist in their academic achievement and behavior improvement

Professional development is delivered through experts in the field and through collaboration with staff, as well as the principal.

BTSA provides ongoing support for first and second year teachers in and out of the classroom.

There are many teacher-principal meetings throughout the year, due to the small size of the school. Also, Renaissance Star and Study Island data is examined to evaluate student performance and growth.
