**Forest Charter School's History and Role in the Charter Movement**

Forest Charter School opened its doors in fall of 2002 upon the invitation of then sponsoring agency, Twin Ridges Elementary School District. In July 2007 Forest Charter School left Twin Ridges and, along with 5 other charters, joined together under the sponsorship of Nevada County Superintendent of Schools, NCSOS. At this time, these charters forged a unique concept of a charter cooperative, creating the Nevada County Charter Cooperative (NCCC). In 2012, Forest Charter School submitted a new charter petition to the Chicago Park School District and, following denial, received approval of its charter on appeal by the NCSOS for a five-year term, from July 1, 2012 through June 30, 2017. Forest Charter School then received a renewal for a five-year term from July 1, 2017 through June 30, 2022. With this submission, Forest Charter School seeks a five-year renewal term from July 1, 2019 to June 30, 2024.

Forest Charter School entered the Charter School arena with a new, innovative alternative model of education called Personalized Learning. Personalized Learning has its roots in the homeschool movement, where, for decades, parents have privately tailored learning for their children according to their individual needs and preferences. Prior to the 1990s in California, parents had few choices for their child’s education: the traditional public school system, a private school, or private homeschooling. In 1992, California’s elected officials enacted California’s Charter School Act, which established public charter schools as an option for parents, students, teachers, and community members to design self-governing schools within the public school system to meet the needs of their community. Charter schools were envisioned to provide more flexible and innovative opportunities for California students within the public school system.

As the Charter School movement grew in California, so also evolved a partnership between members of the private homeschool community and public educators who saw great educational potential and value in learning opportunities beyond the classroom. The flexibility and innovation provided through charter school law has successfully demonstrated that an effective learning “classroom” goes well beyond the walls of a traditional public school building. The "blended" approach of the Personalized Learning model gives students choice in pursuing their education through avenues such as part-time support classes, online classes, independent study, or through a variety of other avenues. This flexibility enables students to pursue learning choices that optimize their learning potential according to their individual needs.

Since opening its doors in 2002, Forest Charter School has experienced a great deal of growth. This growth not only indicates that there is a need in the community for this kind of personalized learning approach, but also demonstrates the quality of educational service being offered.
Enrollment Plan

Over its history, Forest Charter School has steadily grown in enrollment. When the school opened its doors on 2002, we began with 203 students and we have now grown to over 750 students. By next fall we hope to grow our enrollment to approximately 825 students by growing our enrollment in the Auburn area.

After a thorough analysis, we feel that maintaining an enrollment of approximately 825 students provides us with a strong fiscal position which allows us to provide a variety of programs and supports for our students as well as a competitive salary and benefit plan for our staff. Further, we believe that this enrollment number allows us to maintain our close-knit community which supports the culture that, we feel, has led to our success.

In spite of this intent, Forest Charter School reserves the right to increase enrollment. If Forest Charter School considers growing its enrollment in the future, FCS will re-evaluate the potential opportunity and the impact at that time to determine if increasing enrollment is the appropriate direction for the school to take.

**Charter Renewal Criteria**

A. **Evidence of Meeting Charter Renewal Standards Pursuant to Education Code Section 47607(b) and the California Code of Regulations, Title 5, Section 11966.5(c)(1)**

Charter petitions must satisfy at least three requirements to be renewed:

1. Education Code Section 47607(a)(3)(A) states: “The authority that granted the charter shall consider increases in pupil academic achievement for all groups of pupils served by the charter school as the most important factor in determining whether to grant a charter renewal.”

   *Such increases are documented below.*

   **AND**

2. Education Code Section 52052(f) states: “For purposes of paragraphs (1) to (3), inclusive, of subdivision (b) of Section 47607, alternative measures that show increases in pupil academic achievement for all groups of pupils schoolwide and among numerically significant pupil subgroups shall be used.”

   *The alternative measures that show increases at the Charter School are documented below.*

   **OR**

3. Education Code Section 47607(b)(4) states: “The entity that granted the charter determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.”

   *As was agreed upon with the County Office of Education, Forest Charter School is not conducting an analysis of how our scores compare to other schools in the county.*

   **AND**

4. Title 5, California Code of Regulations Section 11966.5(c)(1) states: “When considering a petition for renewal, the county board of education shall consider the past performance of the school's academics, finances, and operation in evaluating the likelihood of future success, along with future plans for improvement, if any.”

   *This requirement is met through the documentation presented in the charter renewal petition and appendices.*
The following shall serve as documentation confirming that the Charter School meets the statutory criteria required for renewal as set forth in Education Code Sections 47607(a)(3)(A), 52052(f), and 47607(b)(4) (For Data confirmation, please see CDE Data Quest. Links to each specific Data Quest report for Forest Charter School are available in Appendix A - Links to specific Data Quest Reports)

**Analysis of CAASPP Schoolwide and Subgroup Data**

We are pleased that almost all of our schoolwide scores and our subgroup scores show an upward trend. We realize that we had a general dip in scores in 2018, however, most are less than the 5% window articulated on the school dashboard and these scores are still higher than they were in 2015, again demonstrating an upward trend. Further, our Students with Disabilities sub group is very small (53 students participated in 2017 and 65 students participated in 2018). Because of the small number of students, scores tend to change more dramatically.
The FCS School Wide CAASPP Percent Proficient bar graph above provides a graphic representation of the schoolwide scores articulated in the previous table.
This graph shows the percent of students in each performance level in ELA by grade. If you follow a class for three years, there is a general growth trend in the students who score “Standard Met” and above.
This graph shows the percent of students in each performance level in math by grade. If you follow a class for three years, there is a general growth trend in the students who scored “Standard Met” and above. In the older grade levels, the groups do not make the same gains; this could be attributed to a higher mobility rate in grades 6-8.
Analysis of School Dashboard

We are proud of the scores on our School Dashboard. Our Chronic Absenteeism, Suspension Rate, and our Graduation Rate are all excellent and demonstrate our strong culture and student support. Our College/Career rate is lower than we want, but we recently discovered that many of the honors courses our students were taking had not yet been approved for our a-g course list and therefore were negatively impacting our College/Career score. We have had several honors courses approved by UC this spring, and we anticipate that this score will improve in the future.
Analysis of Student Group Report

This student group report shows the performance level (by color) for each performance area and each student group. As indicated above, our strength is in Chronic Absenteeism, Suspension Rate, and Graduation Rate. We want to improve our ELA and math scores and we are putting a great deal of effort into our intervention program to try to improve these areas. These efforts will likely impact our College/Career score, but we also believe that this category will improve with all of the new a-g class approvals we have obtained this year.
Analysis of Local Benchmark Assessments (Education Code Section 52052(f))

K-8 Local Benchmark Math
2017-2018
(_PERCENT OF STUDENTS IN EACH PERFORMANCE LEVEL)
K-8 Local Benchmark Writing
2017-2018

Local Benchmark Analysis

Benchmark reading and writing scores are higher than CAASPP ELA, but these assessments were adopted to be a screener. When we began the benchmark assessments, our primary goal was to identify low performing students so we could start them in our intervention program and provide support in their areas of weakness. If we want these scores to more accurately reflect CAASPP scores, we would need to change our ELA benchmark to NWEA which provides a more detailed analysis.

The math benchmarks more accurately align with the CAASPP scores. This is most likely due to the our using NWEA, which is a more robust assessment tool. We wanted to focus on our math scores which have traditionally been lower than our ELA scores. We were concerned that if we required both ELA and math in NWEA that we would not get as much participation. And, we were concerned that this requirement could lead to less participation of CAASPP testing. Our population is strongly resistant to standardized testing so we decided to implement these tests slowly.

We only have two years of data because we recently changed our assessment tool and changed the benchmark scoring to align with CAASPP scoring. In the long term, this will provide better, more comparable data, but for now, the change does not allow us to accurately compare these benchmark scores with our older assessment tools and older scoring model. We also recently found a data analysis system that will allow us to break down our benchmark scores so that we can compare these scores with
our CAASPP scores and analyze how our subgroups are scoring on our local assessments verses state assessments. We look forward gathering this information.
Element 1. EDUCATIONAL PROGRAM

**Governing Law:** The educational program of the charter school, designed, among other things, to identify those pupils whom the charter school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners. Education Code Section 47605(b)(5)(A)(i)

**Governing Law:** The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals. Education Code Section 47605(b)(5)(A)(ii)

**Governing Law:** If the proposed charter school will enroll high school pupils, the manner in which the charter school will inform parents as to whether each individual course offered by the charter school meets college entrance requirements. Courses approved by the University of California or the California State University as satisfying their prerequisites for admission may be considered as meeting college entrance requirements for purposes of this clause. Education Code Section 47605(b)(5)(A)(iii)

For the purposes of this Personalized Learning program, Forest Charter School designates K-8 as Elementary and defines core academic subject areas as the following:

- English Language Arts
- Mathematics
- Social Science
- Science

**Targeted School Populations**

Forest Charter School is available to all students of legal TK-12 age in Nevada County and its contiguous counties (Placer, Yuba, Sierra). Currently, Forest Charter School is staffed to enroll approximately 825 K-12 students. Due to the restrictions from Education Code Section 51747.3, which limits the enrollment of students outside of the sponsoring county in order to operate a Learning Center, Forest Charter School closely monitors enrollment of students from the contiguous counties.

Forest Charter School will seek to reflect the general population group in the areas served. Forest Charter School will establish the means and ways for each family with enrolled students to participate fully with the support needed to access all curricula and programs. Forest Charter School, as a public school, does not charge fees or tuition. Further, FCS does not discriminate on any protected classification described in Education Code Section 220, including but not limited to actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code, including immigration status, or association with an individual who has any of the aforementioned characteristics.
Forest Charter School will serve families who desire a standards-based yet flexible and personalized learning approach to education, using independent study as the primary method of instruction. This program will focus on supporting the following student groups:

1. Students who have been attending Forest Charter School’s personalized learning program.
2. Students who are struggling academically in the traditional classroom setting.
3. Students of all ability levels, including but not limited to, special education, college preparatory, and gifted.
4. Students who want to combine career and technical training with their core academic subjects.
5. Home schooled students who want the support and accountability of a standards-based public school.

Attendance

Forest Charter School will follow all applicable independent study laws regarding attendance as set forth in California Education Code including, but not limited to, the required number of instructional minutes and school days. In addition, each year, the Supervising Teacher must create an attendance portfolio of student work samples for each student in preparation of Forest Charter School’s yearly audit. Two work samples per course per semester are required for the portfolio.

What it means to be an educated person in the 21st Century

Forest Charter School believes that being an educated person in the 21st century requires students to be more self-directed, discerning, and thoughtful. Students are now in the position of obtaining information instantaneously in several mediums; therefore, the task for schools to prepare students with the skills to discern credible sources is more critical than ever. Students must learn to not only use the technologies that are such a pervasive part of the world in which they live, but also how to safely and thoughtfully navigate these avenues. Further, due to the incredible pace with which the world is changing, students need to learn how to make learning a lifelong, self-motivated pursuit. Students need to be able to think critically about issues, thoughtfully question ideas and opinions, and clearly communicate ideas as well as learn to self-advocate by maturely speaking with adults in a safe environment. By nurturing the talents and passions of our students, Forest Charter School will help them achieve the skills needed to be a functioning and contributing member of their community and their greater world.

At Forest Charter School, parents/guardians, Supervising Teachers, administrators, support staff and, most importantly, the student make up a dynamic and collaborative team that works together to inspire a life-long love of learning. While Forest Charter School falls under Independent Study law, Forest Charter School philosophically approaches education as a Personalized Learning School and operates on the fundamental belief that each student is an individual and thus thrives with a personalized approach to his or her own education. Personalized Learning seeks to nurture each student through positive and supportive communication and engagement among administration, parents, teachers, and students. Forest Charter School has found that by nurturing each student’s own educational program, a love of learning develops. The unique nature of Forest Charter School’s program allows students to foster life-long academic and social skills, self-confidence, responsibility, independence, and creative expression.

Personalized Learning is a unique public education model that is tailored to the needs and interests of each individual student; this model honors and recognizes the unique gifts, skills, passions, and attributes of each child. Personalized Learning is dedicated to developing individualized learning programs for each child that meets California state standards. The intent is to engage each child in the learning process making it productive, relevant, and meaningful, and as a result, optimizing the student’s learning potential and success. The key attributes that comprise the Personalized Learning model are based upon a solid foundation of the latest educational research findings regarding how students learn most successfully. These attributes include the following:

• Personal Attention
• More one-on-one teacher and student interaction
• Attention to differences in learning styles
• Student-driven participation in developing the learning process
• Access to Technology
• Varied learning environments
• Teacher and parent development programs

• Students are actively engaged in learning experiences, which are integrated across curriculum areas and are meaningful within the context of their present and future lives
• Students are engaged in real-life studies, engaged with experts in their fields, and are working on authentic projects
• Learning opportunities provide information with which to ponder and experiment
• Students have time to reflect, synthesize and ultimately assimilate what they have learned

*Program Implementation (Framework for Instruction)*

*Student Enrollment*

Forest Charter School values an enrollment process that informs students and families of the educational program and the expectation of this model. Currently, interested students and/or parents/guardian will complete the online form (on our website) to begin the enrollment process. New students who have been admitted to the Charter School are asked to come into the office for an orientation meeting with their parents/guardians. The purpose of this meeting is to give students and parents/guardians an overview of Forest Charter School’s personalized learning program, including program options and curriculum choices. At the conclusion of the orientation meeting, the family is given an enrollment packet that includes all the required registration information. After the orientation meeting, the team assigns a Supervising Teacher to the student based on matched personalities, educational philosophies, and desired program
instruction. Collaboration begins with the Supervising Teacher, student, and parent creating a dynamic educational team. If a family is unable to come in for an orientation meeting, their inability to come in will not impact their ability to enroll in Forest Charter.

Once assigned to a Supervising Teacher, the student and parent/guardian will meet with the Supervising Teacher to finish the enrollment process, including creating a student learning plan, signing a Master Agreement, and receiving curriculum and/or materials. The Master Agreement identifies the courses to be completed by the student. The Master Agreement is a set of expectations signed by the student, the parent, and the Supervising Teacher. For elementary and middle school students, standards-based courses in language arts, mathematics, science, and social science are taken as well as physical education and special interest electives. At the high school level, courses on the Master Agreement lead students to a California high school diploma.

Following enrollment, the student and parent must meet with their Supervising Teacher regularly at learning period intervals to create assignments, turn in and evaluate work completed, and discuss progress made toward completing the student’s goals. The Supervising Teacher records the evaluation of student work on a Work Record. Additionally, the student’s attendance is recorded at this meeting.

Students who successfully complete Forest Charter School’s personalized learning program actively learn to be:

- Self-motivated, competent, lifelong learners
- Responsible
- Self-starters
- Pro-active
- Creative thinkers

No admission test is required prior to enrollment. However, upon enrollment, Forest Charter School will assess the student’s academic levels. Such assessments will not be used as a means to prohibit or discourage students from attending. Rather, they will be used to develop an appropriate, tailored educational program for that student.

*Instructional Approaches (Role of Supervising Teacher)*

The Supervising Teacher (“ST”) is an integral part of the daily operation at Forest Charter School. Each ST holds a current California teaching credential and funnels information between the Forest Charter School office, the administration and each family. Forest Charter School believes in equal participation between student, parent, and Supervising Teacher as both a legal and philosophical obligation.

Once a student enrolls with Forest Charter School, the student is assigned to a Supervising Teacher. The Supervising Teacher directs and oversees the implementation of each student’s individual learning program in conjunction with the needs and wants of the family. The Supervising Teacher uses multiple tools to create each learning program including, but not limited to, previous State test score reports, report cards and transcripts, diagnostic testing, and input from families. Each Supervising Teacher aspires to support student success through building a relationship of trust, confidence and respect.
In addition, the Supervising Teacher assures that the work (i.e. curriculum) is aligned to the California State Standards, including the Common Core State Standards (“CCSS”), Next Generation Science Standards (“NGSS”), History-Social Science Framework, English Language Development (“ELD”) Standards, and all other applicable state content standards (hereinafter “State Standards”). If the Supervising Teacher deems that the curriculum chosen to support the student’s personal learning style does not meet all State Standards, then the Supervising Teacher will supplement the course so that all standards are met. If necessary, the Supervising Teacher will consult with the appropriate Forest Charter School subject-specific department chair to ensure proper curricular alignment.

The Supervising Teacher regularly meets with each student and family to:

- Assess learning styles
- Assess student progress with assigned curriculum (formative assessment)
- Monitor student gains
- Assess student’s overall comprehension of assigned curriculum (summative assessment)
- Make recommendations regarding curriculum and materials
- Align curriculum to State Standards
- Align curriculum to students’ interests and strengths
- Facilitate fieldtrips and other information from Forest Charter School
- Manage and monitor compliance issues, such as attendance, collection of work samples, and State testing
- Be the main contact and support for each student

On a daily basis, the Supervising Teacher supports students and families through making regular contact via phone, Internet, and face-to-face meetings. The Supervising Teacher checks on student progress by logging onto Forest Charter School’s learning management system, contacting instructors and checking in with students. The Supervising Teacher also monitors each student’s Instructional budget by working with the Forest Charter School business office to track curriculum orders that have been placed, fill out learning set-up forms for tutoring and enrichment activities, and monitor other costs associated with courses a student takes. The Supervising Teacher is also responsible for making sure families receive curriculum they request or order from Forest Charter School.

Forest Charter School believes it is imperative to match Supervising Teacher and students based on shared learning styles and personalities. Whenever possible, Forest Charter School administrators match students with a Supervising Teacher based on information collected through the orientation process as well as the grade levels in which a Supervising Teacher specializes. It is Forest Charter School’s belief that elementary and middle school students and families need to be nurtured in a different way than high school students and families. Personalizing each student’s program reinforces to students and families that Forest Charter School is a safe educational environment in which the student will be valued and respected.

**Response to Students Performing Above or Below Grade Level**

Forest Charter School supports student learning by creating an individualized, academic learning plan for each student, including students at grade level, students above grade level, students below grade level, students with disabilities, socio-economically disadvantaged students, and English Learners. The nature of Forest Charter School’s personalized learning program inherently allows Forest Charter School staff to
support student learning and success by providing an assessment of individual student needs and creating a plan to address how student needs are met. Student needs are frequently reassessed so that each student receives the maximum amount of support in each subject area. Supervising Teachers also recognize that students have unique needs in each subject area. (For example, a student may be advanced in math, but at grade level in reading.) By personalizing each learning plan, students benefit by participating in a program tailored to their abilities as well as support from all the available resources Forest Charter School has to offer.

Program Options

Forest Charter School serves students of all grades and ability levels and prides itself in offering many different program options within an independent study model. The state’s independent study laws and policies govern Forest Charter School. However, within this framework, Forest Charter School creates a program that is suitable to each student’s unique needs. Forest Charter School has created relationships with organizations and vendors to help provide students with choice and flexibility that will encourage all students to grow as well as to meet and exceed standards recognized by the State of California. Each student, guided by his or her Supervising Teacher, creates a student learning plan, usually blending at least two of the program options within Forest Charter School’s program. Forest Charter School is unique because each student can create a program that will never look like another student’s program; Forest Charter School believes it has as many student learning plans as students enrolled. Therefore, it is difficult to strictly articulate the Forest Charter School educational program because it is always in development based on the ever-changing needs of our students. To better understand some of the options enjoyed by our students, please refer to the following major pillars that currently make up Forest Charter School’s program.

Homeschool/Independent Study

Homeschool/independent study is the foundation of Forest Charter School’s entire program. By participating in Forest Charter School’s homeschool/independent study program, students have the maximum amount of flexibility within the Charter School’s program options. For the purposes of defining Forest Charter School’s programs, homeschool students get the majority of their instruction from a parent in the home whereas independent study students tend to access the course content independently, or through an instructor (this instructor could be a Forest Charter instructor, an online teacher, a community college professor, or some other expert in their field). Although it is difficult to pinpoint, homeschooling tends to transition toward more of an independent study structure when the student reaches higher-level math and science courses and/or when the student begins high school.

Independent Study: Students and their parents rely on a Forest Charter School Supervising Teacher to guide and help structure a student learning plan that works for the student’s needs and learning style while still aligning to California state standards. Forest Charter School’s Supervising Teachers support each student to help him/her reach his/her potential. With an independent study student, the Supervising Teacher works with the student and family to identify the options that will best support the student’s learning and long-term goals.

Homeschool: Forest Charter School supports families who choose to homeschool their children. Forest Charter School supports and encourages homeschool families by providing accountability through an accredited public school. Families who choose to homeschool their child direct their child’s education and are supported by a Forest Charter School Supervising Teacher, a California credentialed teacher.
Forest Charter School is a California public school, we support California content standards that provide the homeschooling parent with a framework of educational goals by grade level.

Homeschooling parents have a wide variety of choices in accomplishing these goals while nurturing their child’s unique talents and gifts. Each family who chooses to homeschool their child holds a specific belief and philosophy about education. Some of these philosophies include: the schoolroom method, classical education, themed unit studies, interactive learning, inquiry learning and project based learning. Forest Charter School further provides support by pairing homeschool families with a Supervising Teacher who is educated in these specific methods and embodies the family’s preferred educational philosophy.

**Supported Independent Study Instruction through Learning Center Classes**

Forest Charter School offers a unique blend of directed independent study. Students can opt to take core and/or enrichment courses through qualified California credentialed teachers at each of Forest Charter School’s learning centers. These courses aim to support students and parents by guiding students through curriculum presented by credentialed teachers in small groups. This structure provides weekly on-campus support classes and tutoring in core and elective subjects. Each year, a schedule of courses is available for students to choose from. Whenever appropriate, these courses are designated as college-prep. If a student would like to take one of these courses as an honors level course, the student and ST arrange additional time and work with the course instructor to design and discuss the additional expectations and quality that will be expected.

In addition, tutoring is also often available through writing and math labs. This tutoring is not restricted to students attending these courses; any Forest Charter School student may attend these lab times on an as-needed basis. Forest Charter School also offers an array of elective courses at the Block Classes, such as but not limited to art, music, and choir. Elective courses help students meet college and career goals as well as round out a student’s schedule.

Some of the instruction offered supplements the homeschool/independent study work completed by students. These classes enrich the curriculum designed and implemented by the Supervising Teacher, parent, and student. Block Classes also serve to give students the opportunity to meet other students socially and participate in school activities such as harvest festivals, holiday open houses, and other celebrations.

**Cooperatives K-12**

Cooperatives are small learning communities that focus on academics and social interaction while still maintaining a personalized approach. Forest Charter School has created cooperatives so students can share their passions and make discoveries with their peers.

In these cooperatives, students take part in a unique blend of classroom and non-classroom learning. Cooperatives aim to create a program that effectively balances the best of homeschool with the best of a school community.

The Supervising Teacher of each cooperative facilitates activities and oversees the independent study work students complete. Forest Charter School cooperative Supervising Teachers believe the sky is the limit in terms of students furthering study on topics of interest and they encourage students by helping them develop projects and other creative ways to approach their learning. During their time at home,
students engage in one-on-one personalized instruction, while in the cooperative classes, students collaborate, cooperate, teach and inquire. Each cooperative focuses on a different theme such as but not limited to the environment, peace studies, or global issues. Students wishing to participate in these cooperatives are looking for the following:

- Inventive and challenging standards-based curriculum that encourages students to investigate, problem solve, collaborate, and make thoughtful decisions
- Hands-on, thematic projects requiring creativity and ingenuity
- A safe and supportive environment where each student’s gifts are celebrated
- Recognition of multiple intelligences in assessment and instruction
- A small learning community
- Have access to group and one-on-one tutoring
- Build close and lasting relationships with peers and teachers

In all high school cooperatives, core curriculum is available to prepare students to advance on to college successfully.

*Online Classes*

Forest Charter School offers multiple opportunities for students to engage with online education as another option within the Charter School's program. Forest Charter School actively investigates online education vendors so that Supervising Teachers can recommend online programs that will work well for students’ differing learning styles. By taking online classes, students explore how technology plays an important role in a diverse array of 21st century issues while taking challenging and engaging core classes that will prepare them for a technological world after high school. Students combine online and in-person learning to create a highly personalized and customizable learning experience. Students who choose this option are looking to:

- Have many different online core and elective courses available
- Be exposed to a wide variety of technology classes such as computer graphics, animation, computer game design, programming and web design.
- Have access to group learning and one-on-one tutoring opportunities.

*Community College (Academic Enrichment)*

Students attending Forest Charter School have the opportunity to attend classes through their local community college. As per common practice, students who choose this option receive both high school and college credit on their high school transcript. Forest Charter School has built a strong relationship with the local community college. Forest Charter School supports the community college by following all policies and procedures in recommending students for enrollment in community college classes. Forest Charter School does not restrict students from taking courses at the community college level. Students meet with their Supervising Teacher and career advisor to discuss the appropriate placement within a community college program.
Career Technical Education

Forest Charter School participates in a local Career Technical Education program that serves students in both Nevada and Placer counties. CTE provides students with relevant career pathway training to meet the needs of local industries. Forest Charter School students may take courses that would not be available to them if they attended other local high school programs because of their more flexible school schedule. Forest Charter School supports CTE by upholding the procedures and guidelines CTE sets forth. Forest Charter School students participating in CTE must follow all attendance and classroom policies pertaining to each CTE course. Forest Charter School students and parents provide all transportation to and from CTE programs. Students who wish to participate in CTE are looking to:

- Demonstrate a strong work ethic and effective time management skills
- Perform professionally as individuals and team members
- Use appropriate business etiquette and protocols
- Make effective decisions using relevant career information
- Demonstrate skills and strategies to gain employment
- Learn the qualities, skills, and education necessary to be successful
- Understand trends that affect careers and the need for lifelong learning
- Identify interests, career pathways, and a plan for ongoing educational options

Employment Education

Forest Charter School’s Employment Education curriculum provides students with valuable information so that students will be prepared and successful in the work world. This curriculum design includes community-based learning as well as academic instruction, which aligns with Forest Charter School’s philosophy. The purpose of Employment Education is to provide learning opportunities through paid or unpaid employment, internship, or vocational experiences.

Community Vendors

Forest Charter School is committed to supporting and encouraging a number of diverse activities and learning experiences. As a result, Forest Charter School offers students and families the opportunity to take lessons and classes through community vendors. Community vendors serve Forest Charter School students by providing instruction from qualified, real-world experts who have knowledge and/or facilities in areas Forest Charter School cannot provide as an independent study program. Forest Charter School believes that as a personalized learning program, students should have the best instruction in elective/enrichment activities such as art, music, and tutoring; community vendors partner with Forest Charter School to fill this important need.

Community Engagement

Forest Charter School wishes to engage students in their community by providing them the opportunity to participate in diverse community activities. All activities sponsored by Forest Charter School enrich learning while maintaining a safe experience for students. Forest Charter School does this by:

- Offering school-organized field trips
- Partnering with community organizations to solve local issues
• Inviting guest speakers to present on topics of study

Chromebooks

Forest Charter School makes chromebooks available for all students in grades 6-12 to use as a tool to enhance their learning opportunities. Not only does this tool allow students access to technology and an opportunity to learn various programs that will enhance their learning as well as their employment prospects, it also opens up more opportunities to round out their personalized learning plan. Students can explore things from educational videos to primary documents to fully supported online classes. In addition, chrome books offer the following benefits:

• Strong communication between the teacher and student
• Faster feedback from the teacher
• Supports organization through the use of Google calendar
• Stores handouts and assignments in one place
• Allows for communication and collaboration between classmates through features such as chat, email, group projects, peer editing, etc.

High School Graduation Requirements and Course of Study

Forest Charter School believes in supporting a well-rounded education. In support of this belief, the Charter School’s graduation requirements and course of study exceed the state’s minimum graduation requirements. Forest Charter School’s graduation requirements allow students maximum flexibility in choosing a course of study aligned with each student’s personal educational goals. Each student is encouraged to create a high school graduation plan by completing Forest Charter School’s Recommended Course of Study for College Bound Students. Forest Charter School’s Recommended Course of Study for College Bound Students is aligned with college admission requirements through the National Association for College Admission Counseling (“NACAC”), as well as the UC/CSU recommended course of study (Appendix B – High School Graduation Requirements).

Forest Charter School’s Graduation Requirements and Forest Charter School’s Recommended Course of Study for College Bound Students can be found in Forest Charter School’s High School Course Catalog. The information contained in Forest Charter School’s High School Course Catalog is available to each student through his/her Supervising Teacher and can also be found on Forest Charter School’s website.

Forest Charter School’s graduation requirements closely mirror other local high school programs. Forest Charter School has purposefully chosen to mirror other school’s graduation requirements, as there is a degree of student mobility among the high schools within this geographical region.

Forest Charter School believes it is important for students to be introduced to topics in career pathway information before graduation. In keeping with this belief, Forest Charter School adopted two additional graduation requirements: Career Advisory and Contemporary Skills. The Career Advisory class is typically taken as a tenth grader and covers topics such as job skills, goals, skills assessment and an opportunity to explore potential career paths. The Contemporary Skills class is typically a twelfth grade class that focuses on real-world financial literacy, internet-safety, and a career component that prepares students to make future occupation and lifestyle choices. Forest Charter School feels that these classes promote well-rounded students who will be productive and successful adults in the work world or in college.
Forest Charter School’s personalized learning program provides students and their families the flexibility to work with rigorous and challenging curriculum that reflects the student’s ability and goals. As a result, Forest Charter School offers core courses for general studies credit, college-prep credit, honors credit, and College Board approved Advanced Placement credit. A student and his/her Supervising Teacher will determine which type of credit each core course will be as evidenced on the student’s Master Agreement. Each type of course will also be noted on the student’s high school transcript.

All work attempted and completed by a Forest Charter School high school student is recorded on a high school transcript. The Student Records and Student Services office maintains a computerized transcript system. The College and Career team as well as Forest Charter School administrators utilize the transcript system to determine a student’s grade point average. Any school making an official written request for a student’s cumulative file will be given a copy of a current transcript. The transcript will show work completed through prior schools as well as credits earned from Forest Charter School.

While Forest Charter School believes in encouraging all students to keep their educational options available by pursuing a course of study that will enable them a good chance of being admitted into college, FCS also recognizes and honors students who have goals other than attending college.

**College & Career Center**

Forest Charter School recognizes the importance of students receiving crucial information related to the college admissions process as well as the career and technical world. To address this, Forest Charter School hired a team of college and career advisors to support students and staff. The mission of the college and career team is to help each student design and plan a post high school path. The college and career team relays information from post-secondary institutions as well as career sectors to the Supervising Teachers so that they can advise students in taking appropriate courses to help students meet personal goals. The Forest Charter School college and career team members meet with students and parents in one-on-one sessions as well as in a group setting through seminars. In addition, the college advisors have developed a College Advisory Class. This class allows students to explore post-secondary college options including two year, four year and vocational programs. The emphasis placed on maintaining a full college and career center demonstrates the importance Forest Charter School places on each individual student by helping them to fully realize a personalized learning program’s ultimate outcome: student success.

**English Learners**

The Charter School will meet all applicable legal requirements for English Learners (“EL”), including long-term English Learners or English Learners at risk of becoming long-term English Learners, as they pertain to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The Charter School will implement policies to assure proper placement, evaluation, and communication regarding ELs and the rights of students and parents.

Forest Charter School will comply with all applicable state laws regarding English Learners, which includes, but is not limited to, the following:
• Home Language Survey: Forest Charter School will give each enrolling student the state-required home language survey.

• English Language Proficiency Assessments for California (“ELPAC”): Any student whose primary language is other than English as determined by the home language survey and who has not previously been identified as an English Learner by a California public school or for whom there is no record of results from an administration of an English language proficiency test, shall be assessed for English language proficiency (ELPAC Initial Assessment) within 30 calendar days after the date of first enrollment in a California public school, or within 60 calendar days before the date of first enrollment, but not before July 1 of that school year. All ELs will take the ELPAC Summative Assessment every year until they are reclassified as fluent English proficient.

• Any new student identified as an English Learner will be paired with a qualified Supervising Teacher who holds a California Teacher of English Learners (“CTEL”), Crosscultural, Language, and Academic Development (“CLAD”), or Bilingual, Crosscultural, Language, and Academic Development (“BCLAD”) certification.

Strategies for EL Instruction and Intervention

To best guide each student classified as an English Learner, Forest Charter School will work as a team to guide and instruct each particular student. This team will consist of the student, parent/guardian, and the Supervising Teacher who holds a CTEL, CLAD, or BCLAD certification, and other individuals involved with the student’s instruction. The team will meet to select curriculum that will best serve the EL student. The Supervising Teacher will monitor and evaluate the student’s progress on a monthly basis. In addition, the Supervising Teacher will modify the curriculum based on informal assessments. Forest Charter School always takes each individual student’s needs into consideration when choosing curriculum for ELs. The instruction for the student will be primarily delivered in English, using such approaches as Specially Designed Academic Instruction in English (“SDAIE”). EL students will also receive additional support, focusing on their English language development skills.

Reclassification Procedures

Reclassification procedures utilize multiple criteria in determining whether to classify a pupil as proficient in English including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including, but not limited to, the ELPAC.
- Participation of the pupil’s teachers and any other certificated staff with direct responsibility for teaching or placement decisions of the pupil to evaluate the pupil’s curriculum mastery.
- Parental opinion and consultation, achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process and the parents’ opportunity to participate, and encouragement of the participation of parents or guardians in the reclassification procedure including seeking their opinion and consultation during the reclassification process.
- Comparison of the pupil’s performance in basic skills against an empirically established range of performance in basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English.
**Student Support Team ("SST") Process – Response to Intervention ("RTI")**

Forest Charter School focuses on providing early intervention in order to support student learning. The intervention coordinator is available to consult with individual Supervising Teachers as they choose curriculum and plan for new and struggling students. If a student is not making adequate progress (as indicated by benchmark and state test scores, or parents, or teachers) an SST meeting is scheduled. The SST process is a general education function although, at times, the special education team is consulted or invited to a meeting in order to tap into their specific skills/knowledge. The SST team meets to identify the student’s strengths and needs in order to determine the best steps and curriculum to address these needs. Then, student progress is monitored and reported back to the SST team at subsequent meetings (Appendix C – SST Process; Appendix D - RTI Flow Chart).

**Transferability and Eligibility of Classes**

Forest Charter School is WASC accredited, which offers a variety of benefits. This certification validates the integrity of a school’s program, assures that a manageable system of change and self-evaluation is ongoing, and heightens the likelihood that a school’s credits will be accepted by other public and private schools.

Forest Charter School offers a full menu of courses that meet the A to G admission requirements for the University of California and the California State University. To view the list of Forest Charter School courses that are a-g approved visit the UC a-g course list at the following link: https://hs-articulation.ucop.edu/agcourselist#/list/search/institution.

All coursework completed and credits earned at Forest Charter School offer full transferability to other public high schools and may be considered to meet college entrance requirements. However, final decisions regarding which Forest Charter School credits/courses to accept are up to the school to which the student transfers.

Parents are notified each year regarding the transferability of classes through Forest Charter School’s annual parent notification process.

**Special Education**

Forest Charter School supports all students in special education. Since the guiding philosophy of personalized learning is to create an individual learning plan for all students, accommodating students with individualized educational programs ("IEPs") is a natural fit with Forest Charter School. In addition to adapting the curriculum, Forest Charter School is committed to providing all necessary accommodations, modifications, and services in order for each student to access his or her education.

Forest Charter School is its own local educational agency ("LEA") for the purposes of special education, and is a member of the Nevada County Charter Services Authority ("NCCSA"), a California joint powers agency. NCCSA provides educational and administrative services and support to members. The services include special education administration, staffing – such as school psychologists, special education teachers, speech and language pathologists, and aides – and related goods (testing materials, etc.) and services, as well as oversight of all special education staff and related activities.
Forest Charter School’s plan for delivery of special education services provides for quality educational programs and services in compliance with the Nevada County Special Education Local Plan Area (“SELPA”) and all legal guidelines.

Forest Charter School shall comply with all applicable state and federal laws in serving students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act (“Section 504”), the Americans with Disabilities Act (“ADA”) and the Individuals with Disabilities Education Improvement Act (“IDEA”).

**Services for Students under the IDEA**

Under the federal Individuals with Disabilities Education Act, or IDEA, Forest Charter School identifies and evaluates students who have disabilities and offers them IEPs for special education and related services. Decisions regarding the services that are included in an IEP are made by a team using a process specified in the law. An IEP team includes, at a minimum, a student’s Supervising Teacher (general education teacher), special education teacher, parents/guardians, and a representative of the school administration who is empowered to commit resources such as staff time or funding. By law, Forest Charter School is required to carry out provisions outlined in a student’s IEP.

Each IEP team considers the continuum of placement options and services to ensure students are able to access the curriculum in the least restrictive environment. This includes placement in programs, services, supports, modifications, accommodations, and specialized equipment (if indicated) necessary to provide a free and appropriate public education. Students with disabilities participate in general education, including participation in nonacademic and extracurricular activities to the maximum extent possible to promote interaction with the general school population. Placement in special classes, other schools, or other appropriate programs outside the regular education environment may occur. This is only warranted when the nature or severity of the student’s disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

Forest Charter School has a variety of placement, service, and support options available to serve students with special needs in the least restrictive environment. The continuum of placement options and related services includes the following:

- Full Day placement in general education with in-class supportive services, including resource specialist and/or related services
- Pull out for a portion of the school day by the resource specialist
- Related services such as speech and occupational therapy, and educational-related mental health services
- Placement in a Special Day Class for portions or all of the school day
- Placement in a County Special Day Class or a Special Day Class on another local district campus
- Placement in a Non Public Day School
- Placement in a Non Public Day and Residential School
- Placement in a State Special School

Supplemental aids and services are provided through the NCCSA in conjunction with the Nevada County Office of Education and other local agencies. Supplemental aids and services include, but are not limited
to, transportation, speech and language services, assistive technology, nursing services, psychological services, vision services, and adaptive physical education.

The overall system for delivery of services to special needs children at Forest Charter School is based on a philosophy that has a foundation in the principles of parental involvement, best practice, comprehensive support, and local and state coordination and collaboration.

**Section 504 of the Rehabilitation Act**

Forest Charter School shall be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by the Charter School shall be accessible for all students with disabilities. Forest Charter School recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of a disability, be excluded from participation, be denied benefits a free and appropriate public education, or otherwise be subjected to discrimination under any program of Forest Charter School. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.

A 504 team will be assembled by the Executive Director or designee and shall include the parent/guardian, the student (where appropriate), and other qualified persons knowledgeable about the student as well as any other relevant information such as the meaning of the evaluation data, placement options, and possible accommodations. The 504 team will review the student’s existing records, including academic, social and behavioral records, and is responsible for making a determination whether or not an evaluation for 504 services is appropriate. If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the 504 team, which will evaluate the nature of the student’s disability and the impact upon the student’s education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.

- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligence quotient.

- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student’s aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student’s impaired sensory, manual or speaking skills.

The final determination of whether the student will or will not be identified as a person with a disability is made by the 504 team in writing and notice is given in writing to the parent or guardian of the student in their primary language along with the procedural safeguards available to them. If during the evaluation, the 504 team obtains information indicating possible eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the 504 team.
If the student is found by the 504 team to have a disability under Section 504, the 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives a free and appropriate public education (“FAPE”). In developing the 504 Plan, the 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Forest Charter School’s professional staff.

The 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All 504 team participants, parents, guardians, teachers and any other participants in the student’s education, including substitutes and tutors, must have a copy of each student’s 504 Plan. The site administrator will ensure that teachers include 504 Plans with lesson plans for short-term substitutes and that he/she review the 504 Plan with a long-term substitute. A copy of the 504 Plan shall be maintained in the student’s file. Each student’s 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, any necessary modifications to the plan, and if the student is still eligible.

Charter School Goals and Actions to Achieve the Eight State Priorities

Pursuant to Education Code Sections 47605(b)(5)(A)(ii), a reasonably comprehensive description of Forest Charter School’s annual goals and actions, both schoolwide and for each subgroup of pupils, to achieve the Eight State Priorities as described in Education Code Section 52060(d), can be found in Forest Charter School’s Local Control and Accountability Plan (“LCAP”). Each of these goals addresses the unique needs of all students attending Forest Charter School, including our numerically significant student subgroups. The metrics associated with these goals help Forest Charter School to ensure that these specific subgroups are making satisfactory progress, and are provided with necessary additional supports made possible by additional funds from the Local Control Funding Formula.

The current LCAP is on file with the County and is also available on our website. Forest Charter School shall annually update and develop the LCAP in accordance with Education Code Section 47606.5 and shall use the LCAP template adopted by the State Board of Education. Forest Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter term through the annual LCAP update. Forest Charter School shall submit the LCAP to the County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33.

The LCAP and any revisions necessary to implement the LCAP shall not be considered a material revision to the charter, and shall be maintained by the Charter School.
Element 2. MEASURABLE STUDENT OUTCOMES

_Governing Law:_ The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school. Education Code Section 47605(b)(5)(B)

Goals, Actions and Measurable Outcomes Aligned with the Eight State Priorities

Pursuant to Education Code Sections 47605(b)(5)(A)(ii) and 47605(b)(5)(B), a reasonably comprehensive description Forest Charter School’s annual goals, actions and measurable outcomes, both schoolwide and for each subgroup of pupils, in and aligned with the Eight State Priorities as described in Education Code Section 52060(d), can be found in Forest Charter School’s LCAP. Each of these goals addresses the unique needs of all students attending Forest Charter School, including our numerically significant student subgroups. The metrics associated with these goals help the Forest Charter School to ensure that these specific subgroups are making satisfactory progress, and are provided with necessary additional supports made possible by additional funds from the Local Control Funding Formula.

(Appendix B – Graduation requirements)

WASC Accreditation

Forest Charter School is accredited by the Western Association of Schools and Colleges. WASC is one of six regional accrediting associations in the United States that accredit public and private schools, colleges, and universities in the United States.

The WASC website comments that “WASC values accreditation as a process designed to strengthen schools in the delivery of quality educational programs. Accreditation is important to schools as it impacts students' access to colleges and universities and career opportunities in a variety of ways. An effective WASC self-study review is a powerful tool for schools to improve the quality of education and more effectively serve staff and students.”

In 2018, Forest Charter School went through its most recent WASC accreditation process and received a six-year term with a mid-term review.

Expected School Wide Learning Results

Forest Charter School believes that many educational goals, although not objectively measurable, are equally valuable. By articulating the Expected School Wide Learning Results, Forest Charter School places an emphasis on the whole student, and articulates academic and non-academic goals. Further, Forest Charter School believes that attention toward achieving the ESLRs will have an emotional impact on students that will ultimately translate into future success. With these considerations in mind, Forest Charter School has developed ESLRs that articulate qualities that students should strive to attain as well as a word cloud of values important to our culture (Appendix E – ESLRs & Values). Forest Charter School will update these ESLRs as part of the next WASC accreditation process.
Element 3. STUDENT PROGRESS MEASUREMENT

**Governing Law:** The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card. *Education Code Section 47605(b)(5)(C)*

Forest Charter School will meet all statewide standards and conduct all required state-mandated student assessments as required by Education Code Section 47605(c)(1). This includes but is not necessarily limited to the CAASPP, which includes the Smarter Balanced System of Assessments (“SBAC”), California Science Test (“CAST”), California Alternate Assessments (“CAAs”), the Physical Fitness Test (“PFT”), the ELPAC and any other applicable standardized assessments.

Further, by using a variety of traditional and non-traditional assessment methods to gauge student progress toward the academic and non-academic goals, Forest Charter School will maintain its focus on personalizing each student’s learning plan while staying true to its mission, exit outcomes, and curriculum.

Additional Assessments

Forest Charter School believes that state mandated assessments and the school dashboard are important to help maintain school accountability; however, Forest Charter School also recognizes that students are individuals who desire non-standardized approaches to education. With these considerations in mind, Forest Charter School also uses the following assessments to gauge student ability.

Benchmark Assessments
Over the last few years, Forest Charter School has piloted, developed, implemented and refined the use of benchmark assessments in grades K-8. The purpose of the benchmark testing is twofold: First, FCS is working to assess the percent of student who are testing proficient or above on these assessments. Second, FCS wishes to identify students who are working below grade level and provide intervention and other support to bring each student’s math and/or language arts skills up to grade level. In the high school, we have moved away from extra benchmark assessments and have focused on closely monitoring grades as an indicator that a student may need intervention. This system has shown to be effective in providing support to these students earlier. Ultimately, these benchmark assessments provide a first indication that there may be an issue and that we need to look more closely at what is causing a particular student to work below grade level standards.

9th Grade Math Placement Assessment
In order to ensure that all students are placed in the appropriate math class, the State has implemented a 9th grade math placement assessment requirement. This assessment has provided FCS another opportunity to see what percent of our 9th grade students are working at or above grade level and what percent require more support to bring up their skills. We also hope to track the difference between those who attended FCS in grades K-8 and those students who came from outside K-8 programs.

Other Assessments:
Forest Charter School uses many informal assessments to determine the appropriate placement and course of study for students of all grade levels such as but not limited to the following: a variety of publisher-guided curriculum and assessments, teacher-created curriculum, as well as the Forest Charter School designed curriculum. Teachers also regularly assess student knowledge using tests, portfolios, long-term projects, presentations, speeches, essays, and online as well as college-level courses. Additionally, to ensure that Forest Charter School is also serving high achieving academic students who wish to go on to further educational pursuits, data collected from students who take SAT, ACT, and AP tests is analyzed to determine how these students are performing.

Use and Reporting of Data

Forest Charter School uses the data from the above assessment methods to refine and develop its personalized academic program. Currently, Forest Charter School is placing emphasis on the individual to determine if a focus on individual student skills will positively impact assessment scores. So far, we have seen positive results both on an individual level and in our State test scores. Forest Charter School is also starting to use a more powerful data analysis program that will allow the school to compile all of our various assessments and then compare and disaggregate the data with more detail, thereby providing a clearer picture of the school’s needs. (For example, it may be beneficial to track how students are testing based on things like longevity with the school.) This type of information could inform how Forest Charter School decides to approach a particular grade level and/or a particular subject.
Assessment data is reported to the staff during one or more regular staff meetings and to the Charter Council during its public meetings. This data is prepared for several required reports such as the School Plan for Student Achievement, the School Accountability Report Card (“SARC”), the school-wide action plan, and the LCAP. These reports and results are presented to and, if necessary, approved by the Charter Council.

Various assessments are used to build a complete picture of each student, and from this information, the Forest Charter School team creates an education plan that best meets the needs and goals of each student.

Data Analysis

Forest Charter School is committed to performing well on state assessments; however, Forest Charter School must also mediate the needs and beliefs of our students and families who choose a personalized learning program. Forest Charter School believes in nurturing each student to foster an individualized love of learning. Through a personalized approach to education, Forest Charter school works to ensure each student will develop academic skills while also placing great value on non-academic skills.

Plan to Address Needs and Areas of Weakness

Intervention Program
As described earlier, Forest Charter School has developed a strong intervention program to assist students working below grade level. Students are given benchmark assessments in math and English Language Arts and their scores are recorded in our student information system. The intervention coordinator reviews this data, identifies students of concern and then connects with that student’s Supervising Teacher to determine what interventions are being implemented and if a more formalized program in needed. If a student is placed in a more formalized intervention program and still does not demonstrate growth, the Intervention Coordinator will contact Student Services to determine if a referral to special education is appropriate.

Other Intervention
Although not a formalized process, Forest Charter School Supervising Teachers intervene as part of our normal process of building a personalized learning program for each student. Forest Charter School supports student learning by creating an individualized, academic learning plan for each student, including students at grade level, students above grade level, students below grade level, students with disabilities, socio-economically disadvantaged students, and English language learners. The nature of Forest Charter School’s personalized learning program inherently allows Forest Charter School staff to respond to student learning and success throughout the year by providing an assessment of individual student needs and creating a plan to address how student needs are met. Student needs are frequently reassessed so that each student receives the maximum amount of support in each subject area. Forest Charter School Supervising Teachers also recognize that students have unique needs in each subject area. (For example, a student may be advanced in math, but at grade level in reading.) By personalizing each learning plan, all students benefit by receiving a program tailored to their abilities as well as support from all available resources Forest Charter School has to offer.
Element 4. GOVERNANCE STRUCTURE

_Governing Law_: The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement. Education Code Section 47605(b)(5)(D)

Since the inception of the Charter School, a collaborative and diverse team of Forest Charter School educators has met regularly to explore policy, state requirements, curriculum, program development, and many other school issues. Forest Charter School feels that by taking the time to gather perspectives from the various parts of the staff (i.e. teachers, administrators, and classified staff), a more thoughtful decision can be made and thereby avoid potential pitfalls inherent in implementing new policies, procedures and programs. This dynamic leadership team is positive and solution-oriented. The Faculty Council makes recommendations only to the Executive Director. INTRODUCTION

A. Purpose of the Plan
The purpose of the Forest Charter Comprehensive School Safety Plan (School Safety Plan) is to identify and respond to incidents by outlining the responsibilities and duties of the Forest Charter and its employees. Developing, maintaining, and exercising the plan empowers employees in an incident to act quickly and knowledgably. In addition, the plan educates staff, faculty, students, and other key stakeholders on their roles and responsibilities before, during, and after an incident. This plan provides parents and other members of the community with assurances that Forest Charter has established guidelines and procedures to respond to incidents/hazards in an effective way.

The developed guidelines and procedures for dealing with existing and potential student and school incidents, and incidents that may occur at Forest Charter or in the outlying county are defined in the plan below. The basic plan and the functional and hazard-specific annexes outline an organized, systematic method to mitigate, prevent, prepare for, respond to, and recover from incidents. Faculty and staff have been trained to assess the seriousness of incidents and respond according to these established procedures and guidelines. Forest Charter annually schedules training for faculty and staff.

Lastly, developing, maintaining, and exercising the School Safety Plan increases Forest Charter’s legal protection. Forest Charter is committed to providing students with quality educational experiences in a safe and secure school environment. To implement this commitment, the Comprehensive Safe School Safety Plan was developed in accordance with the objectives of SB 187. Policies and procedures are assessed, modified, and updated on an ongoing basis to ensure that the plan is an effective and integral part of the county’s efforts to provide an optimal learning environment.

B. Scope of the Plan
The Forest Charter School Safety Plan outlines the expectations of staff/faculty, and students; roles and responsibilities; direction and control systems; internal and external communications plans; training and sustainability plans; authority and references as defined by local, tribal, State, and Federal government mandates; common and specialized procedures; and specific hazard vulnerabilities and responses/recovery.

1. Definitions

Incident: An incident is an occurrence – natural, technological, or human-caused – that requires a response to protect life or property. The principal/building administrator shall have the authority to determine when an incident has occurred and to implement the procedures within this Comprehensive School Safety Plan.

Hazards: Hazards shall include situations involving threats of harm to students, personnel, and/or facilities. Hazards include but are not limited to natural, technological, and human-caused incidents. Hazards may require an interagency response involving law enforcement and/or emergency services agencies depending on the size and scope of the incident. Identified hazards parallel those identified in the Local Hazard Mitigation Plan of Nevada County.

- Medically fragile health (including asthma and severe allergies).

Nevada City Learning Center, Auburn, and Foresthill Learning Center buildings are on the ground floor and have adequate ramp and wheelchair access for safe and efficient evacuations.

Truckee Learning Center is a two story building with an elevator. If the elevator cannot be used students in wheelchairs will be assisted by the assigned staff.

Hazard Analysis Summary

The Nevada County Operational Area Emergency Services Council prepared a Local Hazard Mitigation Plan on behalf of the County, its incorporated cities and towns and participating districts. The Plan preparation process culminated in a completed document while providing the participants with a clear understanding of local risks and tangible mitigation plans for reducing or eliminating long-term risk to people and property from natural and human caused hazards and their effects. The Plan meets the requirements of the Disaster Mitigation Act of 2000 and maintains the eligibility of Nevada County and all other participants in the Plan for FEMA Pre-Disaster Mitigation (PDM) and Hazard Mitigation Grant Programs (HMGP). The Plan preparation process followed a methodology recommended by FEMA. The planning process examined the recorded history of losses resulting from natural and selected human-caused hazards and analyzed the future risks to the county by these hazards. The planning effort undertaken for the Nevada County Fire Plan was an integral part of the plan.

The Nevada County Superintendent of Schools recognizes that school sites and outlying areas are exposed to many hazards, all of which have the potential for disrupting the school community, causing casualties, and damaging or destroying public or private property. The Local Hazard Mitigation Plan of Nevada County 2011 serves as a tool for assessing potential hazards affecting school sites. Forest Charter utilizes the FEMA training and template E/L361 and G364: Multi-hazard Emergency Planning for Schools and the Local Hazard Mitigation Plan (LHMP) of Nevada County to develop this Comprehensive School Safety Plan.
Mitigation Assessment

According to the Local Hazard Mitigation Plan of Nevada County 2011, circumstances in the school or near school sites that may present unique problems or potential risk to people or property rank wildfire as a high risk. The interior and exterior portions of all school buildings and school grounds have been assessed for additional potential hazards that may impact the site, staff, and visitors. Identified hazards have been assessed by risk and likelihood and ranked accordingly.
The following is a history of mitigation assessments from the 2011 Local Hazard Mitigation Plan of Nevada County:

Since we published our 2006 plan, the County has responded to a national call for pandemic flu response preparedness. County efforts have included procurement, installation and tasking of new equipment and the preparation and practice of new policies and procedures that allow the County to respond effectively to future pandemic flu outbreaks. This work was conducted outside the scope of the Plan and whereas the program is maintained by the County, this work will remain outside the scope of the Plan.

Since we published our last Plan the County has been affected by the worldwide economic downturn which has resulted in reduced government funding, leaving County departments with fewer staff and financial resources to respond to potential disasters. Our systematic evaluation of the Plan and reassessment of risk prioritization has resulted in a realignment of risk mitigation priorities.

Moving forward the Plan will list Severe Weather before Floods and Drought will be listed independently following Floods on our priority list. These revisions are based on our experience over the last few years of the logistical challenges due to power outages from severe weather like snow and high winds as well as localized flooding from heavy rains.

Our revised priority list is:

a) Urban and wildland fire  
b) Severe weather (heavy rain/thunderstorm/lightning/hailstorm, snow and ice and wind)  
c) Flood  
d) Drought  
e) Dam failure  
f) Landslides  
g) Avalanches  
h) Earthquakes  
i) Volcanoes  
j) Agricultural hazards  
k) Natural Health Hazards such as West Nile Virus  
l) Earth Subsidence (due to mining activities)

## Identified High-Priority Hazards

<thead>
<tr>
<th>Hazard</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Urban and Wildfire</td>
<td>“Fire hazards are the most prevalent type of hazard. “Accepting Nevada County’s terrain, climate, rainfall and forest land/urban mix, it is a certainty that significant wildland fires are going to continue as a threat. Generally, the fire season extends from early spring to late fall. Fire conditions arise from a combination of hot weather, an accumulation of vegetation, and low moisture content in the air. These conditions, when combined with high winds and years of drought, increase the potential for wildfire to occur”. Arson and or a commercial fire will continue to remain as serious threats to the commercial and business vitality of the county’s town and cities and developed commercial areas. Enforcement of the county and municipal building, hazardous materials and fire codes will greatly mitigate against future losses of this type. Weather components such as temperature, relative humidity, wind, and lightning also affect the potential for wildfire. High temperatures and low relative humidity dry out the fuels that feed the wildfire creating a situation where fuel will more readily ignite and burn more intensely. Wind is the most treacherous weather factor. The greater a wind, the faster a fire will spread, and the more intense it will be. Winds can be significant at times in Nevada County. North winds in Nevada County are especially conducive to hot, dry conditions, which can lead to &quot;red flag&quot; days indicating extreme fire danger. Winds coming from the southeast have also been noted as a concern in the western third of the County. In addition to wind speed, wind shifts can occur suddenly due to temperature changes or the interaction of wind with topographical features such as slopes or steep hillsides. Lightning also ignites wildfires, often in difficult-to-reach terrain for firefighters. Related to weather is the issue of recent drought conditions contributing to concerns about wildfire vulnerability. During periods of drought, the threat of wildfire increases” (Mitigation Plan 2011, p. 28).</td>
</tr>
<tr>
<td>Severe Weather</td>
<td>Records show that there have been 69 severe weather incidents affecting Nevada County in the period 1960 to 2000. 28 were incidents related to high wind; 8 incidents were related to freeze or extreme cold; lightning was the issue in 5 incidents; 21 incidents were reported as heavy rain; and 24 were incidents related to winter storm or snow. Some incidents included more than one cited cause (Mitigation Plan 2011, p. 28). Rain, snow, lightning and high winds are likely to continue as one of the natural threats to Nevada County. Transportation for students is one of the main concerns relating to severe storms. The Nevada County Office of Emergency Services, Cal Trans, Nevada County Superintendent of Schools, local school districts, and the California Highway Patrol work together to determine school closures as needed.</td>

### Flood
Flooding is a natural feature of the climate, topography, and hydrology of Forest Charter and its surrounding areas. Flooding predominates throughout the winter and early spring due to melting snow, breakaway ice, and rainy weather.

As identified in the Nevada County General Plan (1996); “Areas within Nevada County subject to 100-year and 500-year flooding are as follows: Deer Creek west from Scott's Flat Reservoir through Nevada City towards Lake Wildwood; two tributaries bordering Alta Sierra and Highway 49 to the east and west; along Bear River to Rollins Reservoir; Little Greenhorn Creek; Greenhorn Creek; Steep Hollow Creek; the South Yuba River; the entire extent of the Truckee River through eastern Nevada County; and tributaries that run south into Prosser Creek Reservoir, Boca Reservoir, and Martis Creek Reservoir. Shorter stretches are located south of Nevada City; along Highway 20 near Penn Valley; and in the northwest area of the county. The flood hazard areas are generally confined to the areas adjacent to the County's local rivers and streams.” Grass Valley identified the following flood hazards in its 2020 General Plan Update was as follows: “As indicated by Federal Emergency Management Agency Flood Insurance Rate Maps (FIRM), the City of Grass Valley and the General Plan Planning Area are relatively well drained. The 100-year flood designations are generally confined to narrow bands along local drainages. Few transportation corridors are susceptible to flooding in a 100-year flood event. Idaho-Maryland Road east of SR 49/20 and South Auburn Street south of Whiting Street will be flooded during a 100-year flood.” Some backyard flooding has occurred along Mill Street as it abuts Wolf Creek. “To the extent culverts and storm drains are not maintained, other localized flooding could occur. Structures located in the flood hazard areas would be subject to flooding in a 100-year flood event unless special mitigation is employed” (Nevada County EOP, p. 42).

<tr>
<th>Hazardous Materials</th>
</tr>
</thead>
</table>
| “Hazardous materials incidents may occur anywhere and at any time in Nevada County. The potential for a hazardous materials incident in Nevada County depends on the volume, distribution, and/or use of chemicals and other hazardous substances in a particular area. An assessment of the known hazardous material threats within Nevada County has been developed. In general, the likelihood of a hazardous materials incident is greatest in the following areas:

1. **Transportation Routes**
   Highways, railways, and commercial and military aviation routes constitute a major threat because of the multitude of chemicals and hazardous substances transported along them. Interstate 80 and State Routes 20, 49, 89, 174, and 267 are areas of concern, as are the Union Pacific railroad tracks, which roughly parallel I-80. In addition, the underground pipelines which provide natural gas to various parts of Nevada County and the Underground Hydrocarbon pipeline, which runs adjacent to the Union Pacific railway tracks.

2. **Illegitimate Business**
   Illegitimate businesses, such as clandestine drug laboratories, are a significant threat to human health, property, and the environment. In many instances, the residue is discharged into a public sewer or private sewage disposal system, or is dumped in remote areas of the county or along the side...” |
of the road, posing a serious health threat to the unsuspecting person who stumbles across it” (Mitigation Plan 2011, p. 34).

| Earthquake | The western half of Nevada County is in the lowest Earthquake Shaking Potential for California. It is likely that the region will be impacted by future seismic activity and with the exception of the far eastern edge of the County, the magnitude of the incident is not likely to be severe. Lake of the Pines is the primary community developed in the 8-10% peak ground acceleration zone of Nevada County. Developed primarily since the 1960's, Lake of the Pines would not be expected to suffer significant damage during a normal earthquake event for this area. Grass Valley, Nevada City, Penn Valley, Cedar Ridge, Lake Wildwood, Rough and Ready, and North San Juan are the communities primarily in the 10-15% peak ground acceleration zone. Of these communities, Grass Valley, North San Juan, Rough and Ready and Nevada City are those, which have structures of un-reinforced masonry buildings in their older neighborhoods and commercial districts. While possible, it is not expected that normal seismic activity in this area would result in significant damage. (Mitigation Plan 2011, p.28). |
| Human Health Hazards | “The impact to human health that wildlife, and more notably, insects, can have upon an area is substantial. The feared avian flu pandemic initially predicted in 2006 and again in later years would be expected to have serious consequences to human health and economics worldwide. Nevada County due to its relatively dispersed population may be impacted differently than the states' major urban areas and their compacted human population. **West Nile Virus** Nevada County recognizes the potential for WNV to occur within the County and has initiated a public outreach campaign and a limited control program. The Nevada West Nile Virus task force has managed the risk of WNV through focused efforts at reducing the mosquito population and educating the public. **Pandemic Flu** Every few decades an influenza outbreak occurs with a virus that is particularly virulent and contagious resulting in national or even international concerns for human health and welfare. The influenza virus is particularly dangerous to the very young and old, people with a suppressed immune response or have a susceptibility to respiratory disease from a pre-existing condition(s). Key improvements to Nevada County's infrastructure and communication channels have been deemed confidential however the results of these efforts can be seen in improved epidemiological surveillance capabilities, more efficacious responses to anomalies and aberrations in both the healthcare and educational systems, and improved communication between public entities, with healthcare providers, and to the public at large” (Mitigation Plan 2011, p.34) |
| Intruder | While a hostile intruder incident has never occurred at Forest Charter, like any educational site, it is vulnerable to intruders. |
| Terrorism | Forest Charter, like other public institutions, is vulnerable to terrorist activity. |
## Vulnerabilities

| Fire | The County's single largest risk for human life and financial loss is fire. Wildland fires and, in particular, fires that impinge on the wildland urban interface have cost County residents the most financially and in loss of life. The combined efforts of all involved parties maintain a tapestry of vigilance, preventative efforts and rapid response to the wildland fires threat. Residential developments in wildland areas and limited forestland management resources have created and will perpetuate an environment of dense fuel reserves with seasonal wildland fire risk to the County's residents and their improvements. Our best strategy to date has been to thin fuel sources at wildland urban interfaces, educate residents, and provide a rapid response to wildland fires when they start. |
| Severe Weather | Severe weather across the County routinely leads to regional power outages, isolation of vulnerable regions (single access road closures), and white-out conditions on roadways. Deep snow, strong winds and severe cold have also created unsafe living conditions for vulnerable members of our community. The County recognizes these risks and supports a number of education and outreach programs targeted and reducing the continuing risks of severe weather across the County. |
| Dam Break | An identified vulnerability would be a collapse of Upper Scotts Flat Dam, which would immediately overflow Lower Scotts Flat Dam. Approximately 25% of Nevada City and 65% of the downtown historic district would be submerged in such a failure” (Mitigation Plan 2011, p19). |
| HazMat | “The intersection of State Highway 49 and State Highway 20 is of particular concern for hazmat incidents. State Highway 20 is an alternate route when Interstate 80 is otherwise closed. State Highway 49 is the primary access highway for western Sierra County. Increasing population and commerce will invariably result in increasing shipment of hazardous materials on these two significant local routes. |
4. Preparedness, Prevention, and Mitigation Overview

Preparedness is achieved and maintained through a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action. Ongoing preparedness efforts require coordination among all those involved in emergency management and incident response activities. Forest Charter fosters preparedness at all levels. Examples of preparedness actions include maintaining this plan, conducting training, planning and implementing drills and exercises, etc.

Prevention includes actions to avoid an incident or to intervene to stop an incident from occurring. Forest Charter is committed to taking proactive prevention measures whenever possible to protect the safety and security of staff, students, and visitors. We have policies for bullying and other actions that undermine the safe haven of our schools.

Mitigation includes activities to reduce the loss of life and property from natural and/or human-caused disasters by avoiding or lessening the impact of a disaster and providing value to the public by creating safer communities. Forest Charter has taken action to reduce or eliminate the adverse effects of natural, technological, and human-caused hazards on people and property.

For example, of the many hazards that can endanger a school facility and its service to the community, the most prevalent is fire. Forest Charter was built in accordance with State building codes, in the form of approved materials, fire-resistant assemblies, exiting requirements, the width and design of stairs, the dimensions of corridors, fire suppression systems, and many other standards. Regular fire inspections and recommendations are conducted at Forest Charter. Regular drills are conducted with evacuation routes practiced with students and staff.
D. Planning Assumptions and Limitations

1. Planning Assumptions

Stating the planning assumptions allows Forest Charter to deviate from the plan if certain assumptions prove not to be true during operations. The School Safety Plan assumes:

- The community will continue to be exposed and subject to hazards and incidents described in the Hazard Analysis Summary, as well as lesser hazards and others that may develop in the future.
- A major disaster could occur at any time, and at any place. In many cases, dissemination of warning to the public and implementation of increased readiness measures may be possible; however, some emergency situations occur with little or no warning.
- A single site incident (e.g., fire, gas main breakage) could occur at any time without warning and the employees of Forest Charter affected cannot, and should not, wait for direction from local response agencies. Action is required immediately to save lives and protect school property.
- Following a major or catastrophic incident, the offices may have to rely on its own resources to be self-sustaining for up to 72 hours.
- There may be a number of injuries of varying degrees of seriousness to students, staff, and visitors. Rapid and appropriate response will reduce the number and severity of injuries.
- Outside assistance from local fire, law enforcement, and emergency managers will be available in most serious incidents. Because it takes time to request and dispatch external assistance, it is essential for the staff to be prepared to carry out the initial incident response until responders arrive at the incident scene.
- Proper prevention and mitigation actions, such as creating a positive office environment and conducting fire inspections, will prevent or reduce incident-related losses.
- Maintaining the School Safety Plan and providing frequent opportunities for stakeholders (staff, students, board members, first responders, etc.) to exercise the plan can improve Forest Charter readiness to respond to incidents.
- A spirit of volunteerism among employees will result in their providing assistance and support to incident management efforts.
2. Limitations

It is the policy of Nevada County Superintendent of Schools that no guarantee is implied by this plan of a perfect incident management system. As personnel and resources may be overwhelmed, Forest can only endeavor to make every reasonable effort to manage the situation, with the resources and information available at the time.

II. CONCEPT OF OPERATIONS

This plan is based upon the concept that the incident management functions that must be performed by the office and school site staff generally parallel some of their routine day-to-day functions. To the extent possible, the same personnel and material resources used for day-to-day activities will be employed during incidents. Because personnel and equipment resources are limited, some routine functions that do not contribute directly to the incident may be suspended. The personnel, equipment, and supplies that would typically be required for those routine functions will be redirected to accomplish assigned incident management tasks.

A. Implementation of the Incident Command System (ICS)

In a major emergency or disaster, Forest Charter may be damaged or need to be evacuated, people may be injured, and/or other incident management activities may need to be initiated. These activities must be organized and coordinated to ensure efficient incident management. The Incident Command System (ICS) will be used to manage all incidents and major planned events.

The Incident Commander at Forest Charter will be delegated the authority to direct all incident activities until command is passed to appropriate local law enforcement or fire service personnel. The Incident Commander will establish an incident command post (ICP) and provide an assessment of the situation to the County Superintendent or other designated officials, identify incident management resources required, and direct the on-scene incident management activities from the ICP. If no Incident Commander is present at the onset of the incident, the most qualified individual will assume command until relieved by a qualified Incident Commander or local law enforcement or fire service personnel.
B. Initial Response

Support personnel and teachers are usually first on the scene of an incident. Staff are expected to take charge and manage the incident until it is resolved or command is transferred to someone more qualified and/or to an emergency responder agency with legal authority to assume responsibility. Staff will seek guidance and direction from local officials and seek technical assistance from State and Federal agencies and industry where appropriate.

The Executive Director or his/her designee is responsible for activating the School Safety Plan, including common and specialized procedures as well as hazard-specific incident plans found in annexes. The District Superintendent or designee will assign an Incident Commander based who is most qualified for that type of incident. School sites will incorporate the ICS protocol and follow site specific plans. The Incident Commander will report situation status to District Superintendent and/or Associate Superintendent and will transfer command to local law enforcement or fire service personnel as appropriate.

III. ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

This section establishes the operational organization that will be relied on to manage the incident and includes: Forest Charter

- A list of the kinds of tasks to be performed by position and organization.
- An overview of who does what.

The Superintendent, Associate Superintendent, and school Principals are not able to manage all the aspects associated with an incident without assistance. The office and school site Administrators rely on other personnel to perform tasks that will ensure the safety of students and staff during a crisis or critical incident. The Incident Command System (ICS) uses a team approach to manage incidents.

Staff may be required to remain at school to assist in an incident. In the event that this School Safety Plan is activated, staff will be assigned to serve within the Incident Command System based on their expertise and training and the needs of the incident.

A. Executive Director

The Executive Director may serve as the Incident Commander or delegate that authority to a qualified individual. At all times, the Executive Director still retains the overall responsibility for the safety of staff and students on school sites within the district jurisdiction. However, delegating the authority to manage the incident allows the Executive Director to focus on policy-level activities and interfacing with other agencies, staff, and parents. Command of an incident is transferred to local law enforcement or fire service personnel as appropriate.

Incident Commander

The Incident Commander responsibilities include:

- Assume overall direction of all incident management procedures based on actions and procedures outlined in this Comprehensive School Safety Plan.
• Take steps deemed necessary to ensure the safety of students, staff, and other individuals.
• Determine whether to implement incident management protocols (e.g., Evacuation, Reverse Evacuation, Shelter in Place, Lockdown, etc.), as described more fully in the functional annexes in this document.
• Arrange for transfer of students, staff, and other individuals when safety is threatened by a disaster.
• Work with emergency services personnel. **(Depending on the incident, community agencies such as law enforcement or fire department may have jurisdiction for investigations, rescue procedures, etc.)**

B. Teachers on school sites

On the Forest Charter site, teachers and support staff shall be responsible for the supervision of students and shall remain with students until directed otherwise. Responsibilities include:

• Supervise students under their charge.
• Take steps to ensure the safety of students, staff, and other individuals in the implementation of incident management protocols.
• Direct students in their charge to inside or outside assembly areas, in accordance with signals, warning, written notification, or intercom orders according to established incident management procedures.
• Give appropriate action command during an incident.

• Report missing students to the Incident Commander or designee.
• Execute assignments as directed by the Incident Commander or ICS supervisor.
• Obtain first aid services for injured students from the school nurse or person trained in first aid. Arrange for first aid for those unable to be moved.
• Render first aid if necessary. School staff will be encouraged to be trained and certified in first aid and CPR.

C. Instructional Assistants on school sites

Responsibilities include assisting teachers as directed.

D. Counselors, Social Workers, and Psychologists on School Sites

• Direct students in their charge according to established incident management protocols.
• Render first aid if necessary.
• Assist in the transfer of students, staff, and other individuals when their safety is threatened by a disaster.
• Execute assignments as directed by the Incident Commander or ICS supervisor.

E. School Nurse (FCS has a part time nurse that is on site for 19 days per year)

When on site, her responsibilities include:
• Administer first aid or emergency treatment as needed.
• Supervise administration of first aid by those trained to provide it.

• Learn to be responsible for themselves and others in an incident.
• Understand the importance of not being a bystander by reporting situations of concern.
Develop an awareness of natural, technological, and human-caused hazards and associated prevention, preparedness, and mitigation measures.

J. Parents/Guardians of students on school sites
Responsibilities include:
- Encourage and support school safety, violence prevention, and incident preparedness programs within the school.
- Participate in volunteer service projects for promoting school incident preparedness.
- Provide the school with requested information concerning the incident, early and late dismissals, and other related release information.

- Understanding their roles during a school emergency.

IV. DIRECTION, CONTROL, AND COORDINATION

A. School Incident Command System (ICS)

To provide for the effective direction, control, and coordination of an incident, either single-site or multi-incidents, the School Safety Plan will be activated including the implementation of the Incident Command System (ICS).

The Incident Commander is delegated the authority to direct tactical on-scene operations until a coordinated incident management framework can be established with local authorities. The Policy Group is responsible for providing the Incident Commander with strategic guidance, information analysis, and needed resources.

Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them). Search and Rescue Teams are also responsible for:  
  - Identifying and marking unsafe areas.  
  - Conducting initial damage assessment.  
  - Obtaining injury and missing student reports from teachers. |
| First Aid Team            | First Aid Teams provide triage, treatment, and psychological first aid services. First Aid Teams are responsible for:

- Assume responsibility for overall documentation and recordkeeping activities; when possible, photograph or videotape damage to property.
- Develop a system to monitor and track expenses and financial losses, and secure all records.

This section may not be established onsite at the incident. Rather, Nevada County Superintendent of School’s Business offices may assume responsibility for these functions.

B. Coordination with Policy/Coordination Group

In complex incidents, a Policy/Coordination Group will be convened at the Nevada County Superintendent of School’s offices. The role of the Policy/Coordination Group is to:
- Support the on-scene Incident Commander.
- Provide policy and strategic guidance.
- Help ensure that adequate resources are available.
- Identify and resolve issues common to all organizations.
- Keep elected officials and other executives informed of the situation and decisions.
- Provide factual information, both internally and externally through the Joint Information Center.

1. Community Emergency Operations Plan (EOP)

Forest Charter maintains a site-specific Comprehensive School Safety Plan to address hazards and incidents. Staff members that maintain and exercise the plan are in frequent contact with Christine Espedal, Safety and School Climate Coordinator, Nevada County Superintendent of Schools. Direction in large-scale events is in cooperation with Nevada County Office of Emergency Services, local law enforcement and fire services personnel.

2. Coordination with First Responders

An important component of the Forest Charter’s Comprehensive School Safety Plan is a set of interagency agreements with various county agencies to aid timely
communication. These agreements help coordinate services between the agencies and Nevada County Superintendent of Schools. Regular communication, collaboration, drills, and exercises maintain an active working relationship.

Various agencies and services include county governmental agencies such as mental health, law enforcement, and fire departments. The agreements specify the type of communication and services provided by one agency to another. The agreements also make school personnel available beyond the school setting in an incident or traumatic event taking place in the community.

**If a school incident is within the authorities of the first-responder community, command will be transferred upon the arrival of qualified first responders.** A transfer of command briefing shall occur. Forest Charter’s Incident Commander may be integrated into the Incident Command structure or assume a role within a Unified Command structure.

E. Source and Use of Resources

Forest Charter will use their own resources and equipment to respond to incidents until incident response personnel arrive.

V. COMMUNICATIONS

Communication is a critical part of incident management. This section outlines Forest Charter’s communications plan and supports its mission to provide clear, effective internal and external communication between the school, staff, students, parents, responders, and media.

A. Internal Communications

1. Communication Between Staff
   Staff will be notified when an incident occurs and kept informed as additional information becomes available and as plans for management of the situation evolve. The following practices will be utilized to disseminate information internally when appropriate:
   - School all call phone system is available to make all calls to programmed staff, schools, and parents.
   - Emails may be sent to teachers in classrooms as an effective communication tool.
   - Classroom phones may be used for communication between office staff and teachers.
   - The Public Address (PA) system will be implemented for all-school site communication.

2. Communication with specific school sites
   - Site specific staff will communicate with the Main Office and Superintendent of Schools office who will notify others as appropriate. Forms of communication may include:
Forest Charter Comprehensive Safety Plan

- Hard-line phone communication to NCSOS and Main Office
- Cell phone call directly to Superintendent/Associate Superintendent
- Email
- Fax

B. External Communications
Communicating with the larger school community begins before an incident occurs. In the event of an incident, parents, media, and first responders will require clear and concise messages from Nevada County Superintendent of Schools about the incident, what is being done about it, and the safety of the children and staff.

1. Communication with Parents

Before an incident occurs, Forest Charter will:
- Develop a relationship with parents so that they trust and know how to access alerts and incident information.
- Inform parents about the school’s Comprehensive School Safety Plan, its purpose, and its objectives. Information will be included in the school newsletter and teacher parent meetings (learning record meetings). Further, the school website will have safety information available.
- Be prepared with translation services for non-English-speaking families and students with limited English proficiency.
- Inform parents of the school site relationship with NCSOS’s office.

In the event of an incident, Forest Charter will:
- Disseminate information via automated phone calls, radio announcements, television, and emails to inform parents and staff about exactly what is known to have happened at specific school sites.
- Implement the plan to manage phone calls and parents who arrive at school or at school site.
- Describe how the school, district, and county offices are handling the situation.
- Provide information regarding possible reactions of their children and ways to talk with them.
- Provide a phone number, Web site address, or recorded hotline where parents can receive updated incident information.
- Inform parents and students when and where school will resume.

After an incident, Nevada County Superintendent of Schools and/or designee will schedule and attend an open question-and-answer meeting for parents as soon as possible.

2. Communication with the Media

In the event of an incident, the Incident Commander will:
- Designate a Public Information Officer.
- Establish an off-campus briefing area for media representatives.
Forest Charter Comprehensive Safety Plan

- Determine the need to establish or participate in a Joint Information Center.
- Coordinate messages with the school site principal and Policy Group.

All Forest Charter employees are to refer all requests for information and questions to the designated spokesperson or Joint Information Center (if established). Media contacts at the major television, Internet, and radio stations are maintained by the District Superintendent’s administrative assistant. In the case of an incident, these media contacts will broadcast Forest Charter’s external communications plans, including the information hotline for parents and guardians.

3. Handling Rumors

In addressing rumors, the most effective strategy is to provide facts as soon as possible. To combat rumors, Nevada County Superintendent of Schools will:
- Provide appropriate information to internal groups including administrators, teachers, students, custodians, secretaries, instructional assistants, cafeteria workers, and bus drivers. These people are primary sources of information and are likely to be contacted in their neighborhoods, at grocery stores, etc.
- Hold a faculty/staff meeting before staff members are allowed to go home so that what is (and is not) known can be clearly communicated.
- Designate and brief personnel answering calls to help control misinformation.
- Conduct briefings for community representatives directly associated with the school.
- Enlist the help of the media to provide frequent updates to the public, particularly providing accurate information where rumors need to be dispelled.

After the immediate incident response period Nevada County Superintendent of Schools will conduct public meetings as needed. These meeting are designed to provide the opportunity for people to ask questions and receive accurate information.

4. Communication With First Responders

The Incident Commander will maintain communication with first responders during an incident. Transfer of command will occur when first responders arrive on the scene to assume management of the incident under their jurisdiction. Forest Charter frequently exercises the School Safety Plan and annually conducts a drill with first responders to practice effective coordination and transfer of command.

5. Communication After an Incident (Recovery Process)

After the safety and status of staff and students have been assured, and emergency conditions have abated following an incident, staff/faculty will assemble to support the restoration of the school’s educational programs. Defining mission-critical operations and staffing will be a starting point for the recovery process. Collecting and disseminating information will facilitate the recovery process.

The staff/school site teams will:
Forest Charter will:

- Identify recordkeeping requirements and sources of financial aid for State and Federal disaster assistance.
- Establish absentee policies for staff/teachers/students after an incident.
- Establish an agreement with mental health organizations to provide counseling to students and their families after an incident.
- Develop alternative teaching methods for students unable to return immediately to classes: correspondence classes, videoconferencing, tele-group tutoring, etc.
- Create a plan for conducting classes when facilities are damaged (e.g., alternative sites, half-day sessions, portable classrooms).
- Get stakeholder input on prevention and mitigation measures that can be incorporated into short-term and long-term recovery plans.

C. Communication Tools
Some common internal and external communication tools that Forest Charter may use include the following:

- Standard telephone - landline
- Cellular telephones: These phones may be the only tool working when electric service is out; they are useful to faculty/staff on route to or from a site. The use of text messaging is the most effective form of communication when systems are overwhelmed.
- Intercom systems: The intercom system includes teacher-initiated communication with the office using a handset rather than a wall-mounted speaker.
• Bullhorns and megaphones: A battery-powered bullhorn is part of the school’s emergency to-go kit to address students and staff who are assembling outside the school. Procedures governing storage and use will help ensure readiness for use.
• Computers: A wireless laptop computer may be used for communication both within the school, to District and County Offices, and to other sites. Email may be a useful tool for updating information for staff, other schools in an affected area, and the District and County offices. An assigned staff member(s) will post information such as school evacuation, closure, or relocation on the home page of the school and district Web site.
• Fax machines: Possible uses include off-campus accidents where lists of students and staff members involved, their locations, and needed telephone numbers can be quickly and accurately communicated.
• Alarm systems on school sites: Bells or buzzers are in place and sound in different ways to signal different types of incidents – for example, fire, lockdown, or special alert (with instructions to follow). All staff/faculty, support staff, students, and volunteers will be trained on what the sounds mean and how to respond to them.
• Whistles: Whistles should be included in crisis kits in order to signal a need for immediate attention or assistance.
• Runners—hand-carried notes may be used for communication as need dictates.

VI. ADMINISTRATION, FINANCE, AND LOGISTICS

A. Agreements and Contracts

If school resources prove to be inadequate during an incident, Forest Charter will request assistance from local emergency services, and other agencies. All requests will be approved by the Business Offices at District and County levels.

B. Recordkeeping

1. Administrative Controls

Forest Charter School Business Offices is responsible for establishing the administrative controls necessary to manage the expenditure of funds and to provide reasonable accountability and justification for expenditures made to support incident management operations for Forest Charter. These administrative controls will be done in accordance with the established local fiscal policies and standard cost accounting procedures.

2. Activity Logs

The ICS Section Chiefs will maintain accurate logs recording key incident management activities, including:
• Activation or deactivation of incident facilities.
• Significant changes in the incident situation.
• Major commitments of resources or requests for additional resources from external sources.
• Issuance of protective action recommendations to the staff and students.
• Evacuations.
• Casualties.
• Containment or termination of the incident.

C. Incident Costs

1. Annual Incident Management Costs
The ICS Finance and Administration Section is responsible for maintaining records summarizing the use of personnel, equipment, and supplies to obtain an estimate of annual incident response costs that can be used in preparing future school budgets.

2. Incident Costs
The ICS Finance and Administration Section Chief will maintain detailed records of costs for incident management and operations to include:
• Personnel costs, especially overtime costs,
• Equipment operations costs,
• Costs for leased or rented equipment,
• Costs for contract services to support incident management operations, and
• Costs of specialized supplies expended for incident management operations.

These records may be used to recover costs from the responsible party or insurers or as a basis for requesting financial assistance for certain allowable response and recovery costs from the State and/or Federal government.

D. Preservation of Records

In order to continue normal school operations following an incident vital records must be protected. These include legal documents and student files as well as property and tax records. The principal causes of damage to records are fire and water; therefore, essential records should be protected accordingly. Details are outlined in the Continuity of Operations (COOP) Procedures, a functional annex of this plan.
VII. PLAN DEVELOPMENT, MAINTENANCE, AND DISTRIBUTION

Forest Charter’s Executive Director or designee is responsible for the overall maintenance and revision of the School Safety Plan. Coordination of training, exercising, and drills are the responsibility of the Principal or designee.

Forest Charter and the School Board are responsible for approving and promulgating the Comprehensive School Safety Plan. Community fire, law enforcement, and emergency managers’ suggestions for improvement will be requested.

A. Approval and Dissemination of the Plan

The Forest Charter safety committee, Site Council, and School Board will approve and disseminate the Comprehensive School Safety Plan following these steps:

- Review and Validate the Plan
- Present the Plan (for Comment or Suggestion)
- Obtain Plan Approval
- Distribute the Plan

1. Record of Changes

Each update or change to the plan will be tracked. The record of changes will include: the date of the change, and the name of the person who made the change.

2. Record of Distribution

Copies of the Comprehensive School Safety Plan will be distributed to those tasked in this document. The record of distribution will be kept as proof that tasked individuals and organizations have acknowledged their receipt, review, and/or acceptance of the plan. The Safety Committee will indicate the title and name of the person receiving the plan, the agency to which the receiver belongs, the date of delivery, and the number of copies delivered. Copies of the plan may be made available to the public and media without the sensitive information at the discretion of the Superintendent.

B. Plan Review and Updates

The Comprehensive School Safety Plan will be reviewed annually by the Forest Charter Safety Committee, Faculty Council, School Board, and others deemed appropriate by school administration. Compliance with education code Section 32286 requires, “each school shall adopt its comprehensive school safety plan by March 1, 2000, and shall review and update is plan by March 1 every year thereafter.”
Forest Charter Comprehensive Safety Plan

The Forest Charter Safety Plan will be updated based upon deficiencies identified during incident management activities and exercises and when changes in threat hazards, resources and capabilities, or school structure occur.

C. Training and Exercising the Plan

Forest Charter understands the importance of training, drills, and exercises in maintaining and planning for an incident. To ensure that all school personnel and community first responders are aware of their duties and responsibilities under the school plan and the most current procedures, the following training, drill, and exercise actions will occur.

Forest Charter School Safety Plan training will include:

- Hazard and incident awareness training for all staff.
- Orientation to the Comprehensive School Safety Plan and annexes.
- First aid and CPR training offered for all staff.
- Team training to address specific incident response or recovery activities, such as Parent-Student Reunification, Special Needs, and Relocation.
- Volunteer participation in two online FEMA courses: ICS 100 and IS-700. Both courses are available for free at FEMA’s Emergency Management Institute Web site.

Additional training will include drills and functional exercises. Drills will be conducted at least once per semester. Exercises will occur at least once per school year. Approved parent volunteers and community members will also be incorporated into larger training efforts.

All Forest Charter staff members are expected to develop personal and family emergency plans. Each family should anticipate that a staff member may be required to remain at school following a catastrophic event. Knowing that the family is prepared and can handle the situation will enable school staff to do their jobs more effectively.
VIII. AUTHORITIES AND REFERENCES
The following regulations are the State authorizations and mandates upon which this Comprehensive School Safety Plan is based. These authorities and references provide a legal basis for incident management operations and activities.

- California Senate Bill 187 (Chapter 736, Hughes, Statutes of 1997) requires that all California schools to develop and implement comprehensive Safe School Plans. (Education Code Section 35294.2). *Education Code* Section 35294.6(a) requires that the plan be reviewed and updated annually by March 1.
- California Education Code 33031 requires that school principals formulate and submit to the district superintendent for approval a civil defense and emergency preparedness plan for that school. Plans must be tested two times during the school year.
- California Government Code Title 1, Division 4, Chapter 8, section 3100 deems public workers to be disaster service workers subject to such disaster services activities as may be assigned to them, and that school districts have a responsibility to be prepared as possible to meet emergencies.
- Because all schools are integral components of every community and its government, it is recommended that all schools—regardless of whether or not they are recipients of Federal preparedness funding—implement NIMS. The Standardized Emergency Management System mandates the use of the National Incident Management System and the use of the Incident Command System (ICS) for managing all disaster/crisis situations.
- Education Code 32282 (a) states: The comprehensive school safety plan shall include, but not be limited to, both of the following:
  1. Assessing the current status of school crime committed on school campuses at school-related functions.
  2. Identifying appropriate strategies and program that will provide or maintain a high level of school safety and address the school’s procedures for complying with existing laws related to school safety.
School Climate

I. PURPOSE

The purpose of this annex is to ensure that there are programs in place to provide staff and students with a positive school climate.

II. SCOPE

The annex outlines the importance of a positive school climate and the tools used for assessing school climate and providing data to guide school improvement efforts.

III. CORE FUNCTIONS

Forest Charter School will work to research, support, train, and guide school staff in the development of a positive school climate.

- FCS will work with school staff and administrators to determine professional development needs for school climate topics.
- FCS will assist in procurement, distribution and use of school climate curriculum materials and supplemental aids.

A. Assessment of school climate

Education Code 32282 (a) states: The comprehensive school safety plan shall include, but not be limited to, both of the following:

1. Assessing the current status of school crime committed on school campuses and at school-related functions.
2. Identifying appropriate strategies and program that will provide or maintain a high level of school safety and address the school’s procedures for complying with existing laws related to school safety.

Forest Charter School reviews appropriate sources of data to identify school safety issues.

- As a measure of school climate the California Health Kids Survey (CHKS) is conducted. School climate index is measured and reviewed annually.
- Attend and/or review notes from the monthly Community Agencies United for Safe Schools and Safe Streets (CAUSSSS) meetings to allow continued collaboration and cooperation with law enforcement, probation, school sites principals, mental health agencies, SARB and school district representatives.
- School Climate data collected from stakeholders during the LCAP development
- Conduct and analyze annual staff and family surveys that include safety reviews
- Review relevant discipline data (e.g. suspension/expulsion rates)

B. Implementation and action for positive school climate:

- Effective counseling and wellness services are available to all students (psychological and social services, attendance improvement, dropout prevention and recovery, and appropriate referral systems for student support).
- Intervention, threat assessments, and referrals are in place on school sites.
- Staff is trained in CPR and First Aide
Forest Charter Comprehensive Safety Plan

- Small community-building events to build relationships
- Refer resources to parents for bullying prevention and suicide prevention.
- FCS works together with families in the county through PARTNERS: People and Resources Together; a Network of Education, Recreation and Support. Family Resource Centers offer parenting classes and workshops, community resources and referrals, child development information, after-school enrichment, and parent/child classes and activities.
- Suicide Prevention Policy – details training for staff and parents as well as emergency procedures, supporting students, and postvention.
- Bullying/Cyberbullying Prevention:
  - Students in grades 9-12 must take a contemporary skills class that has a unit on cyber-bullying prevention
  - Website resources
  - Staff training
- Staff training on sex trafficking, suicide prevention, and bully prevention.
- Health curriculum in 7th and 9th grade has units on sex trafficking, suicide prevention, and bully prevention.

C. Implementation and action for School Safety
- Clear behavior expectations for each learning center. Admin follows up with visits to each class to discuss and dialogue with students about these expectations. Parent and student signatures ensure understanding and acceptance of policies and procedures.
- Student orientation meetings to discuss and promote a positive school climate
- Internet use agreements between school sites and students are in place to ensure proper and safe use of internet services.
- Professional development activities are promoted for all school personnel to include training on the implementation of the school site plan, safe school strategies, crisis response training, consistent enforcement of school discipline policies, child abuse reporting, and identification and recognition of student mental health issues.
- Access to school sites are appropriately restricted and monitored.
- School Code of Conduct posted in all rooms.
Functional Annexes

Each functional annex describes the policies, processes, roles, and responsibilities for that function. Functional annexes address all-hazard critical operational functions, including:

**CONTINUITY OF OPERATIONS (COOP) PROCEDURES**

**I. PURPOSE**

The purpose of these Continuity of Operations (COOP) procedures is to ensure that there are procedures in place to maintain or rapidly resume essential operations within the county after an incident that results in disruption of normal activities or services to schools. Failure to maintain these critical services would significantly affect the education and/or service mission of the school in an adverse way.

- Common procedures, and
- Specialized procedures.

All functional annexes address:

- Situations under which the procedures should be used
- Who has the authority to activate the procedures
- Specific actions to be taken when the procedures are implemented

**II. SCOPE**

It is the responsibility of Forest Charter School officials to protect students and staff from incidents and restore critical operations as soon as it is safe to do so. This responsibility involves identifying and mitigating hazards, preparing for and responding to incidents, and managing the recovery. These COOP procedures are written to address these responsibilities before, during, and after times of routine work schedules. They apply to all Forest Charter School learning centers.

The COOP procedures outline actions needed to maintain and rapidly resume essential academic, business, and physical services after an incident. NCSOS relies on strong internal and external communication systems and partnerships with contractors and organizations to quickly recover following an incident.

**III. RESPONSIBILITIES**

The delegation of authority and management responsibilities in event of an incident follows the hierarchy outlined in previous sections. Designated school staff/faculty COOP procedures personnel, in conjunction with the superintendent, will perform the essential functions.
| Executive Director | Determine when to close schools, and/or send students/staff to alternate locations.  
Disseminate information internally to students and staff.  
Communicate with parents, media, and the larger school community.  
Identify a line of succession, including who is responsible for restoring which business functions for schools/districts. |
|---|---|
| Assistant Director and Academic Dean | Ensure systems are in place for rapid contract execution after an incident.  
Identify relocation areas for classrooms and administrative operations.  
Create a system for registering students (out of district or into alternative schools).  
Brief and train staff regarding their additional responsibilities.  
Secure and provide needed personnel, equipment and supplies, facilities, resources, and services required for continued operations.  
Identify strategies to continue teaching (e.g., using the Internet, providing tutors for homebound students, rearranging tests).  
Reevaluate the curriculum. |
| Facilities Coordinator and/or admin | Work with local government officials to determine when it is safe for students and staff to return to the school buildings and grounds.  
Manage the restoration of school buildings and grounds (e.g. debris removal, repairing, repainting, and/or re-landscaping). |
| Office Staff/Business Office | Maintain inventory.  
|                             | Maintain essential records (and copies of records) including school’s insurance policy.  
|                             | Ensure redundancy of records is kept at a different physical location.  
|                             | Secure classroom equipment, books, and materials in advance.  
|                             | Restore administrative and recordkeeping functions such as payroll, accounting, and personal records.  
|                             | Retrieve, collect, and maintain personnel data.  
|                             | Provide accounts payable and cash management services.  
| Admin                       | Establish support services for students and staff/faculty.  
|                             | Implement additional response and recovery activities according to established protocols. |

To implement the COOP procedures:

- All core COOP procedures personnel will undergo training on executing the COOP procedures. Training will be designed to inform each participant of his/her responsibilities (and those of others) during implementation.
IV. PROCEDURES

The following procedures will be followed by staff to assist in the execution of essential functions and the day-to-day operations.

A. Activation and Relocation

The executive Director will determine when to activate and implement the COOP procedures and make the decision to relocate to the alternate site. Authority for activation may be delegated. The activation may occur with or without warning. The superintendent or designee (with delegated authority) will activate the COOP procedures whenever it is determined the school is not suitable for safe occupancy or functional operation.

Alert, Notification, and Implementation Process

Parents/guardians will be alerted and notified using the automated notification system as important information becomes available.

B. Relocation Sites, Alternate Facilities and Strategy

Forest Charter School is legally designated as a non-classroom based school. Therefore, if such an emergency arises, students will revert to homeschool/independent study in order to access their education.

In the event that the learning center facilities are not available for an extended period of time, Forest Charter School will work with local agencies to secure a location to conduct any on-site instruction.

For estimated short-term (2 to 14 days) payroll and personnel actions, the alternative facility for business services will be the Nevada County Superintendent of School (NCSOS) office located at 380 Crown Point Circle, Grass Valley, CA 95945.
C. Interoperable Communications/Backup Sites

NCSOS is to be used as a temporary alternative site for short-term disruptions involving payroll and personnel actions.

D. Vital Records and Retention File

Vital records are archived and/or retained on backup data systems stored off site.

E. Human Capital Management

Employees responsible for essential functions are cross-trained. Identified special needs employees are provided Americans with Disabilities Act (ADA) accommodation and guidance in their responsibilities as well as the assistance that may be provided by coworkers in event of an incident. A coworker may assist the individual, in the appropriate capacity, to an area of safety. All personnel are also encouraged to plan for their families’ well-being before a disaster strikes.

F. Reconstitution

In most instances of COOP procedures implementation, reconstitution will be a reverse execution of those duties and procedures listed above, including:

- Inform staff that the threat of or incident no longer exists, and provide instructions for the resumption of normal operations.
- Supervise an orderly return to the school buildings.
- Conduct an after-action review of COOP operations and effectiveness of plans and procedures.

G. RECOVERY: PSYCHOLOGICAL HEALING PROCEDURES

I. PURPOSE

These procedures have been developed to provide an emotional catharsis to students/staff impacted by trauma at school or in the community. Following a traumatic event or incident, the following recovery procedures should be implemented to assist students, staff, and their families in the healing process.

II. SCOPE

The following procedures outline steps to be taken by staff/students following a trauma, a serious injury or death, and/or a major incident impacting the community. A working relationship with Nevada County Mental Health professionals ensures preparation for recovery from an incident.
IV. RESPONSIBILITIES

To implement the recovery: psychological healing procedures:

- Parents and guardians will be offered tips on how to recognize signs of trauma.
- Mental health experts will be available to offer expertise and help.

V. SPECIALIZED PROCEDURES

The following procedures will be implemented by staff when directed by the Executive Director or when deemed appropriate by the situation.

A. Immediately Following a Serious Injury or Death and/or Major Incident:
- Convene a staff meeting immediately to discuss how the situation is being handled and to discuss what resources are available to staff, students, and families.
- Set up crisis centers and designate private rooms for private counseling/defusing. Staff should include outside mental health professionals to assist with staff grief.
- Encourage teachers to facilitate class discussions about the incident and allow students to openly discuss feelings, fears, and concerns shortly after the incident. Any students who are excessively distraught should be referred to the crisis response team.
- Accept donations. In the first hours and days after a major incident, offers of help will probably be plentiful; however, offers will diminish considerably as time passes. Donations given and not used can always be returned. Designate a place for staff, students, and community members to leave well-wishes, messages, and items.

B. Hospital/Funeral Arrangements
- Provide staff with information regarding visitation and/or funeral arrangements (time, location, customs) when available. If the funeral is scheduled during a school day, all student and staff will be excused from school.
- Encourage staff and students to attend the funeral to provide support for the family and bring closure to the incident.
- Designate staff person(s) to visit the hospital and/or attend the funeral to represent the school.

C. Post-Incident Procedures
- Allow for changes in normal routines or schedules to address injury or death; however, recommend students and staff return to their normal routine as soon as possible after the funeral.
- Follow up with students and staff who receive counseling and refer them to outside mental health professionals as needed.
- Donate all remaining memorial items to charity.
- Discuss and approve memorials with the school board’s consent.
Hazard- and Threat-Specific Annexes

The hazard- and threat-specific annexes:
- Provide unique procedures, roles, and responsibilities that apply to a specific hazard.
- Provisions and applications for warning the public and disseminating emergency public information are included.

NATURAL HAZARDS: FLOOD

Flooding is a natural feature of the climate, topography, and hydrology of Forest Charter and its surrounding areas. Some floods develop slowly during an extended period of rain or in a warming trend following a heavy snow. Flash floods can occur quickly, without any visible sign of rain. Catastrophic floods are associated with burst dams and levees, hurricanes, storm surges, tsunamis, and earthquakes. The purpose of this annex is to ensure that there are procedures in place to protect staff/students and school property in case of a flood.

I. SCOPE

The annex outlines additional responsibilities and duties as well as procedures for staff responding to a flood near or on school grounds.

II. CORE FUNCTIONS

The County of Nevada Office of Emergency Services, the National Weather Service, and other Federal cooperative agencies have an extensive river and weather monitoring system and provide flood watch and warning information to the school community via radio, television, Internet, and telephone. In the event of a flood, the Incident Commander, or superintendent, will activate the EOP and implement the Incident Command System. The superintendent will alert staff/faculty and school site administrators in case of imminent or confirmed flooding, including that due to dam failure.

A. Operational Functions/Procedures That May Be Activated

Operational functions or procedures that may be activated in the event of a flood include the following:
- Evacuation
- Reverse Evacuation
- Relocation
- Parent-Student Reunification
- Special Needs Population
- Continuity of Operations (COOP)
- Recovery: Psychological Healing
- Mass Care
B. Activating the Safety Plan

The superintendent will determine the need to activate the Safety Plan and designate an Incident Commander.

1. Incident Commander Actions
   - Issue stand-by instruction. In consultation with the superintendent and Nevada County Office of Emergency Services determine if evacuation is required.
   - Notify local law enforcement of intent to evacuate, the location of the safe evacuation site, and the route to be taken to that site.
   - Delegate a search team to ensure that all students and staff have been evacuated.
   - Activate communications plan.
   - Determine if additional procedures should be activated.
   - Issue directed transportation instruction if students will be evacuated to a safer location by means of buses and cars.
   - Notify the site administrators of the status and action taken.
   - Update the administrators, Incident Management Team, and Section Chiefs of any significant changes.
   - Do not allow staff and students to return to the building until proper authorities have determined that it is safe to do so.
   - Communicate with bus drivers.
   - Determine whether school will be closed or remain open.
   - Document all actions taken.

2. Incident Management Team and Section Chiefs Actions
   - Monitor radio and Internet for flood information and report any developments to the Incident Commander.
   - Review procedures with staff as needed.
   - Disseminate information about the incident and follow-up actions such as where school sites have relocated and parent-student reunification procedures.
   - Implement the internal and external communications plan.
   - Notify relocation centers and determine an alternate relocation center, if needed, if primary and secondary centers would also be flooded.
   - Implement additional procedures as instructed by the Incident Commander.
   - Take appropriate action to safeguard school and office property.
   - Document all actions taken.

3. Staff Actions
   - Execute evacuation procedures when instructed by the Incident Management Team and/or Section Chiefs.
   - Account for all staff.
   - Remain together as a staff throughout the evacuation process.
• Upon arrival at the safe site, account for all staff. Report any missing or injured staff to the Incident Commander.
• Do not return to the building until it has been inspected and determined safe by proper authorities.
• Document all actions taken.
TECHNOLOGICAL HAZARDS: CHEMICAL

I. PURPOSE

Hazardous chemicals are used for a variety of purposes and are regularly transported through many areas in and around Nevada County. Currently, ammonia, chlorine, and propane are all used and stored on school grounds. The purpose of this annex is to ensure that there are procedures in place to protect staff/students and school property in case of a chemical spill.

Chemical accidents may originate inside or outside the building. Examples include: toxic leaks or spills caused by tank, truck, or railroad accident; water treatment/waste treatment plants; and industry or laboratory spills.

A. Operational Functions/Procedures That May Be Activated

Operational functions, or procedures, that may be activated in the event of an external chemical spill include:

- Reverse Evacuation
- Special Needs Population
- Shelter-in-Place
- Evacuation
- Parent-Student Reunification
- Continuity of Operations (COOP)
- Recovery: Psychological Healing
- Mass Care

If there is an internal chemical spill, the following procedures may be activated:

Enrollment Policy
Rationale
Forest Charter School (“FCS”) is committed to providing a personalized learning experience for all students. Further, FCS wants to be sure that the enrollment process is fair and equitable. With these considerations in mind, FCS has adopted the following policy:

Admission Requirements
In accordance with Education Code Section 51747.3, students must reside in Nevada County or adjacent counties to be enrolled in FCS. Students must meet the minimum age for admission to a public school (generally 5 by September 1) and must not exceed the maximum age for public school admission (no older than 22 and once 19, must remain continuously enrolled in a public school and without a break in enrollment since that time, is making satisfactory progress toward a high school diploma. FCS admits all students who wish to attend subject only to the geographic limitations set forth in Section 51747.3 and the age limitations described above. FCS does not discriminate on any protected classification described in Education Code Section 220, including but not limited to race, ethnicity, national origin, gender, gender expression, gender identity, sexual orientation, disability or religion.

General Enrollment Procedure
Students wishing to attend Forest Charter School must fill out the online form on the FCS Website during one of the open enrollment periods. If a family is unable to fill out the online form, they may contact FCS by telephone for assistance.

In the case that there are more students who wish to enroll than there is capacity, enrollment will be determined by public random drawing. Preference in the public random drawing (“lottery”) will be given in the following order:
1. Students who were enrolled in FCS in the previous year and are continuing their education with FCS
2. Children or grandchildren of administrators, office staff, special ed staff, supervising teachers and any other learning center employees currently working at FCS
3. Siblings of current students already enrolled in FCS for at least two full Learning Periods
4. Applicants on the waiting list who reside in Nevada County
5. Residents of the Chicago Park School District
6. All other applicants
Open Enrollment Periods for fall applicants and lottery

- February, March, and April – Beginning the first Monday of the month and ending the last school day of the month that the office is open.

- May and June – Three (3) two-week enrollment periods will be held beginning with the first Monday in May. Each enrollment period will run for ten school days (except that Memorial Day will count as a school day). If necessary, an additional open enrollment period will be established for one week in June.

- If these enrollment period dates need to be changed, the new dates will be posted on the website, and at the main office.

- If there are more applicants than available spots for any open enrollment period, a lottery will be held at 3:30 the next school day after any enrollment period closes to determine who is eligible for enrollment and the order of the waiting list.

- If space is still available in August and beyond for current year enrollment, FCS will first offer enrollment to students based on the waiting list and then hold weekly lottery sessions every Friday as needed (i.e., when there are more interested students than there are spots available). The weekly enrollment period will close each Friday at 3:00 and the lottery will be pulled that same Friday at 3:30. Other students will be kept on a waiting list and FCS will contact these students in the order of the wait list to offer a space. To accept the enrollment space, the parent/guardian will meet with the administrator or designee and submit all required registration documents within the timeline described below.

Other Considerations

- In accordance with Education Code Section 51745(c), students who enroll with an existing open IEP, may not participate in independent study unless the IEP specifically provides for that participation. As a result, it may be necessary for an IEP team meeting to be held. The legal requirement for an IEP meeting will not delay enrollment.

- Due to FCS’ unique non-classroom based/ personalized learning structure, students who are under a current expulsion order from a previous school will require special consideration and may not be accepted.

- Due to FCS serving a large geographic area, enrollment space may vary based on the space available with the Supervising Teacher (“ST”) serving that specific geographic area. (e.g., FCS will not require an ST from Nevada City to serve students in Truckee if the Truckee Supervising Teachers are all at capacity.)
Twins – Twins will be placed in the lottery as one student and receive the same lottery position. If there is only one spot available, the family will be offered placement for one twin. If the family declines the offer of placement, the twins will remain on the lottery list in the same position and the applicant next on the list will be offered the placement. Twins will not be dropped from the list or dropped to the bottom of the list if the family declines a spot unless there are two enrollment spots available at the time of declining.

Acceptance of Enrollment

- After a student has been drawn in the lottery, FCS will contact the family via phone and email (if provided) on the online form. Once contacted by the school, the family has two business days to contact Forest Charter School and schedule the orientation meeting with the administrator or designee in order to accept the spot. If Forest Charter does not hear from the family within these two business days, the enrollment spot will be given to the next student on the waiting list, and the student who was originally called will be moved to the next spot on the waiting list.

- FCS will attempt to contact a family for two different open spots in the school. After two attempts to contact a family with an open enrollment spot where the family does not respond to the school, the family will be removed from the waiting list.

- If a family declines an enrollment spot the student will be removed from the waiting list.

- Following the orientation meeting with the administrator or designee, the family will have three business days to turn in all the required registration documentation/forms. If all of the documentation/forms are not turned in within three business days, FCS will offer the enrollment spot to the next student on the waiting list.

- FCS will make every effort to assist and accommodate parents in compiling registration documentation. FCS complies with all laws regarding homeless and foster youth and will not delay registration in the case of a homeless or foster youth without required registration documentation.

Wait List

- Students will remain on the wait list from year to year in the same order as long as they re-contact FCS and establish their continued interest. However, at the end of each enrollment period, the list may be adjusted if a new applicant meets one of the articulated preferences described, above (e.g., the child of a staff member) that the original applicant does not.

Suspension/Expulsion Policy
Suspension and Expulsion Policy and Procedures

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well-being of all students at Forest Charter School (“Charter School”). When the policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. Charter School administrators have reviewed the suspension and expulsion policies of Forest Charter School and the California Education Code prior to preparing the procedures and the list of enumerated offenses for which a pupil may/must be suspended or expelled. This policy and procedures process has been prepared to provide due process to all students. Adherence to the list of offenses and procedures provide adequate safety for students, staff, and visitors to the school and serves the best interests of the school’s pupils and their parents/guardians.

Each disciplinary case will be reviewed on a case-by-case basis. Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will clearly describe discipline expectations, and it will be posted on the Forest Charter School website and be available in hard copy upon request.

same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student or the student’s parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student’s educational rights holder, and shall inform him or her of the right to initiate the procedures specified below for suspensions, before the effective date of the action. If the student’s parent, guardian, or educational rights holder initiates the procedures specified below for suspensions, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, “involuntarily removed” includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below.

Suspensions shall be initiated according to the following procedures:

1. **Conference**

   Suspension shall be preceded, if possible, by a conference conducted by the Director or the Director’s designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Director or designee. The conference may be omitted if the Director or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

   At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense, in accordance with Education Code Section 47605(b)(5)(J)(i).

   This conference shall be held within two (2) school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization.

   No penalties may be imposed on a pupil for failure of the pupil’s parent or guardian to attend a conference with Charter School officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil’s parent or guardian at the conference.

2. **Notice to Parents/Guardians**

   At the time of suspension, the Director or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.
3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension.

Upon a recommendation of expulsion by the Director or Director’s designee, the pupil and the pupil’s parent/guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the pupil or the pupil’s parents, unless the pupil and the pupil’s parents fail to attend the conference.

This determination will be made by the Director or designee upon either of the following: 1) the pupil’s presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil’s suspension will be extended pending the results of an expulsion hearing.

D. Expellable Offenses

1. Discretionary Expellable Offenses: Students may be recommended for expulsion for any of the following acts when it is determined the pupil:

p) Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment. This section shall apply to pupils in any of grades 4 to 12, inclusive.

This section shall apply to pupils in any of grades 4 to 12, inclusive.

s) Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act, as defined in subdivisions (f) and (g) of Section 32261 of the Education Code, directed specifically toward a pupil or school personnel.

A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a
pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (1).

2. Non-Discretionary Expellable Offenses: Students must be recommended for expulsion for any of the following acts when it is determined pursuant to the procedures below that the pupil:

   a) Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the Director or designee’s concurrence.

   If it is determined by the Administrative Panel and/or Board that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the pupil shall be provided due process rights of notice and a hearing as required in this policy.

   The term "firearm" means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. E. Authority to Expel

As required by Education Code Section 47605(b)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled either by the neutral and impartial Board following a hearing before it or by the Board upon the recommendation of a neutral and
impartial Administrative Panel, to be assigned by the Board as needed. The Administrative Panel shall consist of at least three members who are certificated and neither a teacher of the pupil nor a member of the Charter School’s Board. Each entity shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the Board of Directors shall make the final determination.

F. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Director or designee determines that the pupil has committed an expellable offense.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the pupil makes a written request for a public hearing in open session three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
3. A copy of the Charter School’s disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
6. The right to inspect and obtain copies of all documents to be used at the hearing;
7. The opportunity to confront and question all witnesses who testify at
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student’s behalf including witnesses.

G. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The Charter School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2. The Charter School must also provide the victim a room separate from the hearing room for the complaining witness’ use prior to and during breaks in testimony.

3. At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support
person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The entity presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

7. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.

8. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

9. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the entity conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

H. Special Procedures for the Consideration of Suspension and Expulsion of Students With Disabilities
A pupil identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act (“IDEIA”) or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 (“Section 504”) is subject to the same grounds for disciplinary action, including suspension and expulsion, and is accorded the same due process procedures applicable to general education pupils except when federal and state law mandates additional or different procedures. The Charter School will follow the IDEIA, Section 504, and all applicable federal and state laws when imposing any form of discipline on a pupil identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such pupils. The following procedures shall be followed when a student with a disability is considered for suspension or expulsion. These procedures will be updated if there is a change in the law.

1. **Notification of SELPA**

The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student who the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

2. **Services During Suspension**

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student’s IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. **Procedural Safeguards/Manifestation Determination**

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the
parents to determine:

1. If the conduct in question was caused by, or had a
direct and substantial relationship to, the child's disability; or

2. If the conduct in question was the direct result of
the local educational agency's failure to implement the
IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504
Team determine that either of the above is applicable for the child, the
conduct shall be determined to be a manifestation of the child's
disability.

If the Charter School, the parent, and relevant members of the IEP/504
Team make the determination that the conduct was a manifestation of
the child's disability, the IEP/504 Team shall:

1. Conduct a functional behavioral assessment, and
implement a behavioral intervention plan for such child,
provided that the Charter School had not conducted
such assessment prior to such determination before the
behavior that resulted in a change in placement;

2. If a behavioral intervention plan has been developed,
review the behavioral intervention plan if the child
already has such a behavioral intervention plan, and
modify it, as necessary, to address the behavior; and

3. Return the child to the placement from which the child
was removed, unless the parent and the Charter School
agree to a change of placement as part of the modification
of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504
Team determine that the behavior was not a manifestation of the
student's disability and that the conduct in question was not a direct
result of the failure to implement the IEP/504 Plan, then the School may
apply the relevant disciplinary procedures to children with disabilities in
the same manner and for the same duration as the procedures would be
applied to students without disabilities.

4. **Due Process Appeals**

The parent of a child with a disability who disagrees with any decision
regarding placement, or the manifestation determination, or the Charter
School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and the Charter School agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

5. **SPECIAL CIRCUMSTANCES**

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student’s disability in cases where a student:

1. Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;
2. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

3. Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. **INTERIM ALTERNATIVE EDUCATIONAL SETTING**

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

7. **PROCEDURES FOR STUDENTS NOT YET ELIGIBLE FOR SPECIAL EDUCATION SERVICES**

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the Charter School's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

1. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.

2. The parent has requested an evaluation of the child.

3. The child’s teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student’s
disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however, the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

I. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

J. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board, which will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.
K. **Written Notice to Expel**

The Director or designee following a decision of the Board to expel shall send written notice of the decision to expel, including the Board’s adopted findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense committed by the student

2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School.

The Director or designee shall send a copy of the written notice of the decision to expel to the County.

This notice shall include the following:

a) The student’s name  
b) The specific expellable offense committed by the student

A student expelled from Forest Charter School can appeal the decision of the Forest Charter School board to the Nevada County School Board. The Nevada County School Board will ensure that Forest Charter School followed all due process requirements.

L. **Disciplinary Records**

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the County upon request.

M. **Expelled Pupils/Alternative Education**

Parents/guardians of pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. The Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

N. **Rehabilitation Plans**

Students who are expelled from the Charter School shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the
expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to the Charter School for readmission.

O. Readmission

The decision to re-admit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Director following a meeting with the pupil and parent/guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. If the Executive Director determines that it is not in the best interest to admit the pupil, the pupil may appeal the Director's decision at the next board meeting in closed session. The Board shall then make a final decision regarding readmission during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The pupil's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission.

Charter Council Approved: May 21, 2019
Appendix M:
2019-20 Budget Narrative
Summary

Governor Gavin Newsom released his first May Revise on May 9th, 2019 with his continued focus of “California for All” vision from January. This process is the final update to economic assumptions and revenue estimates prior to the required June approval and implementation of the 2019-2020 budget.

The May Revise emphasizes the need for fiscal prudence and the statewide concern of an inevitable recession within the next 3 years. Key elements for Forest Charter School include the following:

- **CalSTRS**: Proposes an additional investment to further reduce the CalSTRS employer contributions rate from the statutory rate of 18.13% to 17.1%, an approximate $34,055 savings to FCS.
- **COLA**: Decrease funds for the cost-of-living adjustment (COLA) for the Local Control Funding Formula. If the budget is approved, the COLA will slightly decrease from the 3.46% estimated in January to 3.26%.
- **Proposition 98**: Prop 98 (voted in 1988) establishes a minimum funding guarantee for TK-12 education and community colleges based on complex formulas from one year to the next. The May Revision provides increases in all three budget years, largely due to increases in General Fund revenues and a slightly slower ADA decline. The details of how this will impact FCS will be clarified at the Governors Workshop on May 20th.

Forest Charter School will continue to budget thoughtfully and responsibly, with input from our County Office of Education, our Governing Board and our staff.
Overview of Local Control Funding Formula (LCFF) and what it means:

Implemented in 2012-2013, the intent of the Local Control Funding Formula (LCFF) is to increase flexibility and accountability at the local level so those closest to the students can make the decisions and ensure that student needs drive the allocation of resources.

The basic design of the LCFF has been to eliminate most categorical programs and fund schools based on student demographics. The LCFF provides a base ‘per-student rate’ (per grade level span) with additional funding for Supplemental and Concentration grants for high need students.

The Supplemental grant is funding which is generated by each student who is identified as an English Learner (EL), or who is eligible for free or reduced price meals (FRPM), or who is a foster youth.

The Concentration grant provides an additional 50 percent for each pupil exceeding 55 percent eligible as high needs. Charter schools are eligible for a concentration grant, however their eligibility is capped at the average FRPM rate of the district in which the school is physically located, rather than the actual FRPM percent of the charter school. A charter school that has Learning Centers in more than one school district cannot exceed the percentage of unduplicated pupils of the school district with the highest percentage.

So, what does this mean to FCS?

- FCS is fully funded under the LCFF calculation
- As part of the total funding received, $535,101 is estimated to be generated as supplemental funds principally directed to support our FRPM population.
- FCS is not eligible for the concentration grant
Overview of Local Control and Accountability (LCAP) and what it means:

The LCAP is an important component of the Local Control Funding Formula as it integrates input from stakeholders in collaboration with the school’s action plan to formulate annual goals for all pupils, with specific actions to address state and local priorities. The LCAP focuses on the actual services provided to students plus accountability for the results achieved through increased and improved services.

Based on stakeholder input and our current action plan, FCS develops a 3 year Local Control and Accountably Plan that set annual goals for all students with specific goals for our Free and Reduced Priced Meals (FRPM) population. The LCAP continues to maintain a part-time intervention specialist for both English Language Arts and Math who will support all students and identifies additional resources to support tutoring, curriculum and other resources principally directed towards our FRPM population. FCS is implementing various tools to establish viable benchmarks for our students and the hiring of two part-time counselors to support student’s emotional needs. The current LCAP can be found on the FCS website at www.forestcharter.com

Education Protection Account (EPA)

The Education Protection Account (EPA) provides schools with general purpose State aid funding pursuant to Proposition 30, approved by voters November 6, 2012. In 2016 voters approved extending the personal tax increase to support education through 2030. The EPA is a component of the school’s general purpose entitlement.

- As outlined in Proposition 30, EPA monies are collected through taxes throughout the year and paid to schools on a quarterly basis.

- The FCS governing board is required to make the spending determinations with respect to monies received from the EPA in open session of a public meeting. These spending determinations are posted on our website at www.forestcharter.com.

- FCS estimates $1,061,605 in EPA Funding for the 2019-2020 school year.
**California State Teacher’s Retirement System (CalSTRS)**

The teacher’s retirement system was projected to run out of money by 2046, however, steps are in place to completely fund CalSTRS by 2045. The employer contribution rate was projected to increase from 8.88% to 19.10% by 2020-21. The Governor’s January Budget decreased this amount from 18.13% to 17.10% for 2019-20, an approximate saving of $34,055 over 2nd Interim projections. Governor Newsom’s May Revise is proposing an additional decrease to the employer contributions from 18.13% to 16.7% in 2019-20, which would be an additional estimated savings of $13,225. However, our Adopted Budget reflects the proposed January decrease of 17.10%, as recommended by our authorizer (NCSoS). Once the Governor’s May Revise is approved, the budget will be revised at 1st Interim. FCS continues to monitor the fiscal impact on the school’s budget.

**Low-Performing Students Block Grant**

The Low-Performing Students Block Grant is a state education funding initiative with the goal of providing grant funds to local educational agencies serving pupils identified as low-performing on state English language arts or mathematics assessments who are not otherwise identified for supplemental grant funding under the local control funding formula or eligible for special education services, as specified in Education Code Section 41570(d). FCS will carryover approximately $20,500 in grant funds into the 2019-20 school year. These funds will be reflected as expense only.

**School Lunch Program**

On September 18, 2018 the Governor approved Assembly Bill 1871, which requires all charter schools to provide meals that meet the federal nutrition requirements to low-income students during each school day. The bill includes nonclassroom-based charter schools for eligible students who are scheduled in advance to attend a learning center facility for a minimum of two hours. The bill is scheduled to go into effect July 1, 2019.

Although we are not planning to participate in the federal rebate program, FCS will meet the requirements by implementing the following:

Dcarter/FCS
• Offering a shelf-stable “grab-n-go” breakfast option to all eligible students at all of our Learning Centers
• Purchase necessary equipment to store food and beverage options by using locked storage cabinets
• Purchase Point-of-Sale software that will automatically connect with student ID’s and anonymously determine whether the student will be charged for the meal or is eligible for Free and Reduced Price Meals.
• Clarify staffing needs to monitor and implement the breakfast program
• Confirm the food vendor which will best meet the needs of our school and various Learning Centers

We have currently budgeted $14,000 in anticipated start up and ongoing costs.

**Independent Study Instructional Budget Increase**

Throughout the 2018-19 school year, we have been discussing and analyzing how to better serve, and grow, our Independent Study population in the Auburn area. The final analysis at the end of the year reflects the following:

• 16% of our Independent Study students went over their allotted $2000 instructional budget. FCS consciously supported our families that were attending core academic community classes on a case-by-case review basis up to $3000 annually.

• Only 2 high school students went slightly over the $3000 limit

Based on these results and the school’s desire to support our independent study families, in addition to remaining competitive and grow in the Auburn area, we are implementing an annual increase to $3000. This increase will have little or no anticipated fiscal impact to the adopted budget and will be offset by the following:

• Remove Field Studies/Field Trips from the general fund, requiring families to fundraise for these opportunities through the FCS Foundation.

• Allocate $25,000 in Lottery funds to provide extra support in curriculum and core academic expenses

DCarter/FCS
• Continue to build the Auburn Independent Study population
• Closely monitor independent study student spending trends

**Adopted Budget in Summary**

The Adopted Budget is based on an ADA projection of 720 students and reflects a net decrease of ($20,500), which is a result of our Low-Performing Grant carryover funds as expense only. FCS will focus on closely monitoring the schools budget and spending trends by implementing the following:

• Provide the Board with specific monthly reports that will track spending in relation to ADA
• Utilize different funding resources to offset student support, such as fundraising through the FCS Education Foundation, etc.
• Review annual costs of school programs to analyze ongoing sustainability
• Continue to bring the school’s cash flow, identifying any major variances, as part of our monthly Charter Council meeting

Our Adopted Budget reflects the following:

1. **Student Support:**

• Increase the Independent Study instructional budget to $3000 annually
• Maintain 2 part-time councilors to support the emotional needs of our students
• Maintain a schoolwide seven (7) year curriculum rotation for our core curriculum used in Block Classes and Co-op’s
• Maintain a schoolwide technology replacement program to provide students in grades 6 - 12 with the latest technology in chromebooks
• Continued implementation of an Intervention Specialist for ELA and Math support for all students with a concentration on our unduplicated student population

DCarter/FCS
2. **Employee Support:**

- Provide First Aid/CPR training to all staff as part of our ongoing safety plan
- Continue to implement a schoolwide PPO health benefit plan with a Health Savings Account (HSA) in an effort to provide the best possible health care option at an affordable cost to all benefit eligible employees
- Increase CalSTRS employer contribution rate to 17.10%

3. **Schoolwide Support**

- Continue to hold a separate Special Education Reserve

**Multi-Year Projection**

Our Budget Summary and Multi-Year Projection identifies the following key points:

- In 2019-2020
  - Enrollment growth to 735  ADA at 720

  - Continued implementation of a 7-year curriculum rotation for our block classes and co-op’s
  - Ongoing implementation of a technology replacement program to keep our chromebooks updated

  • Ending Fund Balance includes a Capital Expense reserve of $600,000, a 5% required reserve and a 2% Special Education reserve

**Audit Regulation Updates**
Charter Schools are required to go through an annual audit conducted by an outside firm to review the fiscal procedures and contemporaneous records of attendance compliance as outlined in the State Audit Guide. This year, annual audits will include the following:

• The LCAP and its process will be subject to an audit, which verifies whether or not the funds provided through apportionment and supplemental funding have been spent in accordance with the requirements
• The audit will verify the school’s Education Protection Account Plan (EPA) to ensure that funds were spent in accordance with EPA requirements
• The audit will ensure that data collection procedures for our unduplicated pupil count complies with Ed Code 42238.01(a)
• The SB 740 Funding Determination will be audited to ensure that FCS meets all regulated requirements
**Enrollment**

The California Basic Education Data System (CBEDS) is an annual data collection, administered every October by all public schools, to collect information on student and staff demographics.

Assembly Bill 1994 (AB 1994) requires Independent Study schools to hold the majority of their enrolled students in the county in which they are sponsored. Based on the current enrollment, 73% of enrolled students reside in Nevada County, meeting our mandated 51% In-County restrictions.

**Enrollment History:**

The enrollment numbers displayed in the following graphs are based on the schools CBEDS numbers, which are collected at the first part of October of each year. The CBEDS number for 2018/19 was 23 students less than the same time last year. Although our October number is lower than last year, our total enrollment is currently at 748 students for the 2018-2019 school year.

Senate Bill 740 (SB 740)

California Senate Bill 740 (SB 740) was passed in October 2001 to strengthen the oversight of non-classroom based schools and implement funding cutbacks for schools that failed to meet spending standards. Since the bill was passed, non-classroom based schools have increased both instructional spending and spending on certificated staff salaries as a proportion of revenues. In order to receive 100% funding, a non-classroom based school must meet the following criteria:

1. At least 80 percent of total revenues must be spent on instruction and related expenses, which includes certificated staff salaries and benefits and
2. At least 40 percent of the above mentioned revenues must be spent on certificated staff salaries and benefits and
3. The overall pupil-teacher ratio must be 25:1 or lower

DCarter/FCS
In October 2016, FCS received a 4 year 100% Funding Determination. Our funding determination was based on the following information:
